

WHAT IS

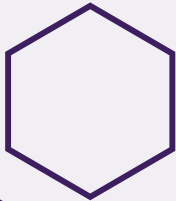

# Gift?

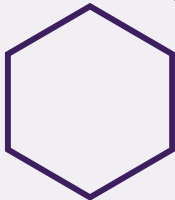

MMU | SOC  
ISLAMIC SOCIETY

An outreach project launched by the **Islamic Societies** at The **University of Manchester** and **Manchester Metropolitan University** - the first of its kind

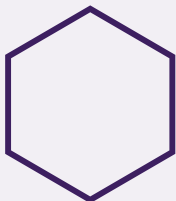

## We Aim to:

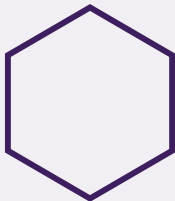

**Benefit** Students by creating “good deed” opportunities through a variety of projects

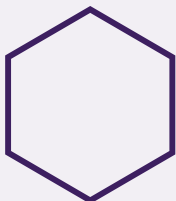

**Inspire** students to do take an active role in bettering the community we're a part of

**Create** projects that are relevant to, and serve, the needs of the community.

**Spread** positivity and unity amongst on both the student community on campus and the wider community of Manchester

**Break** the stigma people have of both muslims and of students.

We have loads of opportunities lined up for you to make a difference, help others and give back to the community

# BUT WHY IS IT IMPORTANT?

Community service is an essential part of our faith, all the way from the young to the old, our neighbour to a traveller, and every living thing in between, including nature!

There are soooooo many ways to get out there in our community and Gift is the project to help you to do just that!

With the characteristics a Muslim should hold, we should be winning the war on public image. The Prophet (peace be upon him) was known for his beautiful character and for all the things that he was accused him of, his character was never one of them. We don't need to be preaching on the streets, we need to be working together to build a better society, a better community

There's been limited effort by Muslims to reform our communities, be it London, or Manchester, or New York. Wherever you're from, how much can you confidently say you've done to help better your wider, non-Muslim, western community?

"And Whoever Volunteers Good, then indeed God is Appreciative and Ever-Knowing" - Quran 2:158

# HOW DO I GET INVOLVED?

Make sure you're following our socials for updates on our upcoming projects
