INTRODUCTION

CNC SETUP

BAND SAW M/C

CENTRELESS GRD M/C

This company was floated by Mr. H. T. Mondkar for manufacture of precision engineering components in the year 1977 with the name of Pla-chem industries. The firm was focusing on the business of polymer industries such as Reliance, Indorama, India polifibers etc. till 2005. The firm has also achieved development of critical components involving heat treatment and precision engineering processes.

The Joint venture was formed with an UK firm NR AUTOMATIC (ENGINEERING) LIMITED in Mar-06; the name of the company was changed to **NR HYTECH ENGINEERS PVT LTD**. This is an **ISO 9001-2000 Company**.

To increase competitiveness, conventional machines have been replaced by **CNC TURNING MACHINES, C/LESS GRINDING, ETC**. We can therefore guarantee a total quality product with 100% interchangeability.

Having a substantial experience in tooling and high precision machining, we can produce critical components to customer's drawings and specifications.

We are processing various materials confirming to ASTM, EN, DIN, BS JIS standards. Material is being procured directly from mills to ensure desired quality. We have established associate company for various range of heat treatment.

We request you to register our name in your active vendor list & forward us your valuable enquiries with drawings & specifications which will receive our prompt attention.
