“Not only am I able to obtain a better understanding of the current affairs affecting Dallas and North Texas but in addition, the Chamber has provided me with networking opportunities that have allowed me to grow my practice.

I have been able to expand my sphere of influence and, in doing so, have received a number of referrals from other members of the Chamber. In fact, I received my first referral from an accountant I met at the chamber in 1991, and we have remained friends and referral sources. I have thoroughly enjoyed my experience at the North Dallas Chamber of Commerce.”
