WNS Pittsburgh Lock Air Closing Hammer.
 18swg (1.2mm) Capacity.
 (AH18)

WNS / INGERSOLL RAND 18swg (1.2mm) PITTSBURGH LOCK AIR CLOSING HAMMER is used for closing 18swg (1.2mm) Pittsburgh Lock and lighter material. The force and speed of the hammer blows can be regulated by the depression of the trigger. Light pressure on the trigger starts the hammer blows at a slow rate, whereas full power is reached when the trigger is fully depressed, speed can also be adjusted by the regulator on the bottom of the handle. Please note: Air Hammer Springs and Hammer Heads are consumable parts. The Hammer must only be operated when in contact with material.
