

BLACKFRIAR®

A TRADITION OF EXCELLENCE SINCE 1894

Range Guide

Preparation Range

Start the job right for the perfect finish

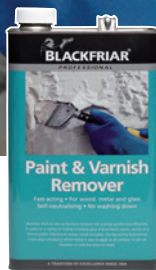

Paint & Varnish Remover

250ml, 500ml, 1Ltr, 2.5Ltrs, 5Ltrs

Blackfriar Paint and Varnish Remover requires minimal preparation. After stripping, no washing down is needed unless you are re-coating the surface with emulsion or any type of water-based finish.

- Fast acting • Self neutralising • Easily removes layers of paint • No discolouration of surfaces • Softens and renews brushes • No washing down required • For wood, metal and glass

Problem Solving Primer

500ml, 1Ltr, 2.5Ltrs

This multi-purpose interior primer is formulated to cover a whole range of surfaces and surface problems. It seals difficult stains caused by water or mould and provides excellent adhesion to a range of surfaces. Covers most stains including nicotine, water, adhesive residues, soot, and wood tannins. Works on ceramic tiles, most plastics, MDF and wood. For use under most finishes including emulsion, gloss and lightweight wallpapers.

- White finish • Covers problem stains • Excellent adhesion

UV Wood Primer

250ml, 500ml

Blackfriar UV Wood Primer is designed to bind the wood grain to provide superior protection against UV damage, the main cause of varnish failure. Enriches and protects your exterior home and garden wood.

- Binds wood grain
- Use under Blackfriar Exterior Varnishes
- Protects from UV damage
- Significantly extends varnish durability
- For use on bare or stripped wood

Wood Primer

250ml, 500ml, 1Ltr, 2.5Ltrs

Provides the perfect foundation to painted surfaces. Its special formulation makes easy work of new and stripped surfaces, enabling you to over-coat with ease.

- White finish • Perfect pre-decoration for soft woods • For interior and exterior use

Multi-Surface Primer

250ml, 500ml, 1Ltr, 2.5Ltrs

**WATER
BASED**

Blackfriar Multi-Surface Primer has been specially formulated to prime multiple surfaces prior to further painting. It's ideal for hard and soft woods, chipboard, plywood, GRP, MDF, exterior UPVC, ceramic tiles, iron, steel, galvanised and non-ferrous metals (aluminium, brass, chrome, copper) and old plaster.

- Interior and exterior use
- For multiple surfaces prior to painting
- Anti-corrosive protection

Aluminium Wood Primer

250ml, 500ml, 1Ltr, 2.5Ltrs

An aluminium primer for hardwoods, which prevents bleed through fresh paintwork. Specifically formulated for painting new or old bare hard or resinous woods.

- For resinous and bare hard woods
- Good barrier properties
- Interior and exterior use

Acrylic Primer Undercoat

250ml, 500ml, 1Ltr, 2.5Ltrs

Ideal for use inside and outside the home. It dries quickly, so you can apply a second coat of Acrylic Primer Undercoat, enabling you to finish a whole job in one day. It is suitable for bare woodwork, hardboard, masonry, dry plaster, cement.

- All-in-one primer and undercoat
- Available in white and grey

**WATER
BASED**

**WATER
BASED**

MDF Primer Undercoat

250ml, 500ml, 1Ltr, 2.5Ltrs

A primer and undercoat especially designed for use on MDF. It's easy to use and dries quickly so you can prime, undercoat and finish in no time. It can be overcoated with a choice of finishes including gloss, emulsion and satins.

- All-in-one primer and undercoat for interior MDF
- Perfect for pre-decoration • White finish

High Performance Undercoat

250ml, 500ml, 1Ltr

Provides the ideal foundation prior to the application of finishing coats. It has excellent obliteration and filling properties and covers light marks. Use it inside and out and on wood, metal, plaster and similar surfaces for a perfect finish.

- Excellent obliteration
- Available in white and grey
- For wood, metal, plaster and more

Red Oxide Metal Primer

250ml, 500ml, 1Ltr, 2.5Ltrs, 5Ltrs

Protect ferrous metals such as steel and iron with this special water-resistant formulation. Suitable for interior and exterior use.

- For ferrous metals
- Resists rust
- Water-resistant when dry
- Anti-corrosive

Anti-Rust Primer

250ml, 500ml, 1Ltr, 2.5Ltrs

An all-in-one primer and undercoat that is the perfect preparation for Blackfriar Quick Drying Metal Paint. It's easy to apply and provides excellent protection against rust. Ideal for factory maintenance, including plant and machinery, and for use at home on your car, bicycles, garden furniture, gates, railings and garage doors etc.

- Tough and durable
- For ferrous metals
- Interior / exterior

Stabilising Solution

500ml, 1Ltr

Essential for binding powdery and porous surfaces before decoration. It binds unstable surfaces, such as old lime wash and distemper, to provide a firm foundation on interiors and exteriors.

- Binds and seals surfaces
- Pre-decorating foundation

**WATER
BASED**

Exterior Water Seal

5Ltrs

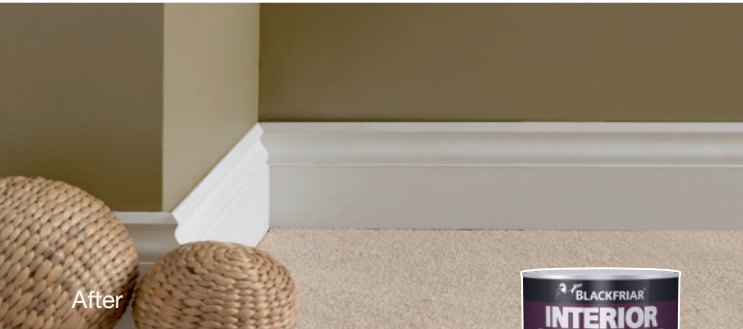

Stop moisture, water and damp penetrating your exterior walls. This solution is silicone-based, providing excellent waterproofing protection. You can use it on all properties, including old buildings and renovated cottages, and on most surfaces, except limestone and wood. It's especially ideal for exposed and porous walls that take the worst of the weather.

- Provides a long lasting waterproof seal

Before

After

Interior Seal Damp

250ml, 500ml, 1Ltr, 2.5Ltrs

Don't let damp patches spoil your interior decoration, protect it with Blackfriar Interior Seal Damp. It's excellent for use prior to decorating as it can be painted or papered over and is suitable for surfaces such as plaster, brick and cement. Not recommended for wood.

- Protect interiors from damp
- Use on plaster, brick & cement
- Ideal for pre-decoration

Concentrated Fungicidal Wash

240ml

Surface biocide for use against fungal and algal growths on hard surfaces. Application method; brush, cloth and spray. Supplied in concentrated form (dilute 240ml of product to 5 litres with water).

- Excellent coverage
- For interior and exterior use

Before

After

Anti-Mould Solution

500ml, 2.5Ltrs

For use against fungi, mould and algae on internal and external surfaces such as masonry and tiles. Apply by brush or spray.

- Ideal for many surfaces
- Odourless

Woodworm Killer

125ml, 250ml, 500ml, 2.5Ltrs

Wood preservative for use against woodworm on internal and external surfaces. Penetrates deep into wood. Apply by brush, spray or dipping.

- Highly effective against woodworm
- Suitable for all types of wood

Liquid Driers

250ml, 500ml

A specially blended solution of liquid driers. Formulated with no added lead. When added to paint it speeds up drying of most conventional oil-based decorative paints, polyurethanes and varnishes. Use in the winter or in very cold exposed positions.

Interior Woodcare

Beautiful finishes for the wood in your home

Wood Dye

250ml, 500ml

Penetrates deep into wood to enrich the colour of bare timber. It can be used on new interior and exterior timber, plywood and chipboard. Plus you can also mix the dye colours to create your own individual shade.

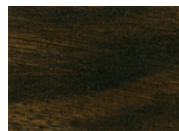

- Available in 9 attractive shades
- Ideal for new / bare timber
- Great for plywood and chipboard
- Easy-to-apply by cloth or brush
- Breathe new life into timber / joinery

Quick Drying Floor Varnish

1ltr, 2.5ltrs, 5Ltrs

This varnish has been specially formulated to protect floors with an attractive, long-lasting scratch-resistant finish. The varnish dries quickly so you could transform your floors in just one day. Easy to clean and perfect for all wooden flooring.

- For wooden floors
- Scratch- and slip-resistant finish
- Quick drying
- Available in clear gloss and satin

**WATER
BASED**

Polyurethane Floor Varnish

1Ltr, 2.5Ltrs, 5Ltrs

Provides floors with a finish that is attractive, durable and easy-to-clean. Helps keep floors clean by sealing against dirt. Can be used on most floor surfaces including chipboard, plywood, hardboard and parquet.

- Seals against dirt
- Ideal for most floors
- Available in clear gloss and satin

Polyurethane Varnish

125ml*, 250ml, 500ml, 1Ltr, 2.5Ltrs, 5Ltrs*

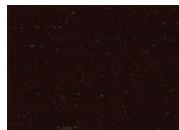

Transform interior woodwork with this tough and durable varnish. Blackfriar Polyurethane Varnish gives wooden surfaces new life and enhances the natural shades of wooden floors and furniture.

- For all woods
- Tough and durable
- Resistant to heat
- Resists diluted acids

* Only Available in Clear (Gloss, Satin and Matt)

Polyurethane Varnish Clear, Gloss

Danish Oil

250ml, 500ml, 1Ltr, 2.5Ltrs, 5Ltrs

Provides a beautiful low lustre satin scratchproof finish. You can use it inside and outside the home and it's ideal for most wooden surfaces including furniture, doors, paneling, wood decorations and wood turning. Blackfriar Danish Oil now includes UV protection, meaning it offers improved protection against discolouration from sunlight and the weather- essential for any exterior wooden surfaces. Provides a satin lustre finish to wood. Interior and exterior use.

French Polish

125ml, 250ml, 500ml

Blackfriar French Polish provides the classic fine finish for wood. It's suitable for new, stained or previously French polished wood and brings out the natural beauty of wooden surfaces. High gloss finish. Shellac based. For soft and hard woods.

Raw Linseed Oil

250ml

Penetrates deep into wood, nourishing it from within. Blackfriar Raw Linseed Oil is ideal for oak beams, cricket bats and bean canes and can also be used for softening putty, and as a lubricant for French Polish. Nourishes and protects all woods.

Patent Knotting

125ml, 250ml, 500ml, 2.5Ltrs

Seals and prevents seepage from knots prior to priming. Not suitable for use under translucent coatings.

Button Polish

125ml

Blackfriar Button Polish can be used on new, stained, or previously French polished wood for a classic look. High gloss finish. Based on Button Shellac.

Boiled Linseed Oil

250ml, 2.5Ltrs

Penetrates deep into wood, providing an attractive ruby tint with a light gloss finish. Blackfriar Boiled Linseed Oil can be used inside and outside and is ideal for bare woods except oak, and is also useful for softening metal glazing putty. Restores and seals soft and hard woods.

Exterior Woodcare

Enriching outdoor colour and protection

Exterior Woodstain

250ml, 500ml, 1Ltr, 2.5Ltrs

Blackfriar Exterior Woodstain stains, protects and finishes exterior timber. It can be used on all hard and softwoods. It is weather-resistant, water-repellent and the satin finish resists flaking, peeling and cracking.

- For hard and soft woods • Weather-resistant
- Microporous – lets timber breathe

Golden Teak (Satin)

Nut Brown (Satin)

Red Mahogany (Satin)

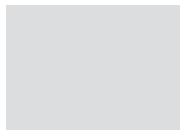

Chestnut (Satin)

Ebony (Satin)

Brown Mahogany (Satin)

Opaque White (Satin)
(1Ltr & 2.5Ltrs only)

Clear (Satin)

Quick Drying Exterior Woodstain

500ml, 1Ltr

**WATER
BASED**

Transform old and new exterior wood with Blackfriar Quick Drying Exterior Woodstain. Our improved water-based formula stains, protects and finishes, and with its quick drying formulation, you can complete a job in just one day. Suitable for soft and hard woods. With built-in UV protection this high quality wood staining system offers up to 6 years of protection before first maintenance.

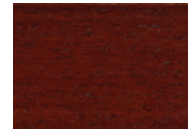

- For soft and hard woods
- UV and water resistant
- Translucent satin finish
- Enhances weathered timber

Medium Oak (Satin)

Teak (Satin)

Rich Mahogany (Satin)

Dark Oak (Satin)

Clear (Satin)

Super Yacht Varnish

250ml, 500ml, 1Ltr, 2.5Ltrs

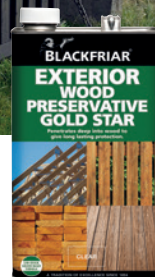

Blackfriar Super Yacht Varnish offers outstanding outdoor robustness and durability; making it perfect for buildings, yachts and boats. Clear gloss finish.

Teak Oil

250ml, 500ml, 1Ltr, 2.5Ltrs

Protects and revives wood – especially hard woods, teak and Scandinavian furniture. Protects against weathering and greying. Nourishes and feeds wood. Reduces surface splitting. For interior and exterior use.

Exterior Wood Preservative Gold Star

1Ltr, 2.5Ltrs, 5Ltrs, 25Ltrs

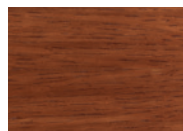

Wood preservative for use against wood rotting fungi. Suitable for fences, sheds, cladding and most external timber. Available in Golden Brown, Dark Brown, Red Cedar, Green, Ebony and Clear finishes.

Exterior Varnish

250ml, 500ml, 1Ltr, 2.5Ltrs (clears only)

Enhances and protects all wood and external joinery. Blackfriar Exterior Varnish provides protection to all types of wood by resisting UV light to give your wood superior durability when applied over Blackfriar UV Wood Primer. For use on bare or stripped wood.

Oak (Gloss)

Mahogany (Gloss)

Clear (Satin & Gloss)

Anti-Slip Deck Coating

2.5Ltrs

With added UV protection, Blackfriar Anti-Slip Deck Coating provides a clear, slip resistant finish to wooden, exterior decking. Can be used in conjunction with Blackfriar Wood Preservative Gold Star, which can be used to colour the timber prior to application.

- Ideal for exterior timber decking and walkways
- Micro-aggregate yields slip resistance
- Clear, textured protective coating
- Excellent coverage

Decorative Paints

Lasting protection and colour

High Gloss Paint

250ml, 500ml, 1Ltr (white and black only)

Blackfriar High Gloss Paint is specially formulated to provide a hard wearing finish with increased flexibility meaning it lasts longer than ordinary gloss paints. It is ideal for wood, metal, plaster and most paintable interior and exterior surfaces.

- Long lasting finish
- Tough and durable
- Use internally and externally
- Smooth gloss finish

Enamel Paint

125ml, 250ml (white and black only)

An easy to use, tough, hard wearing gloss enamel finish. Suitable for use on wood, metal and plaster. Ideal for use on garden tools, plaques, models and all those small jobs.

- Interior and exterior use
- Tough and durable

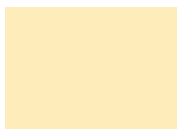

High Gloss Paint and Enamel Paint available in the following colours (except where stated).

Grey (High Gloss)

High-Heat Resistant Paint

250ml, 500ml, 2.5Ltrs

With improved heat resistance, Blackfriar High-Heat Resistant Paint withstands temperatures of up to 600°C, whilst providing an attractive finish for barbecues and chimineas.

- Ideal for barbecues
- For interior and exterior use
- Attractive matt finish
- Quick drying
- Matt Black finish

**WATER
BASED**

Quick Drying Radiator Paint

250ml, 500ml

Specially formulated for interior use on radiators and pipework. Blackfriar Quick Drying Radiator Paint can withstand temperatures of up to 150°C/300°F. Hard wearing brilliant white finish does not yellow with age.

- Heat-resistant to 150°C/300°F
- Tough and durable
- Non-yellowing
- Interior use
- Brilliant white finish

**WATER
BASED**

Chalkboard Paint

125ml, 250ml, 500ml, 1Ltr, 2.5Ltrs

Our famous Chalkboard Paint produces a chalkboard surface in no time. Its durable matt black finish resists ghosting allowing for clear, legible chalk writing.

- Ideal for creating new or renovating old chalkboards
- For an easy to write and clean surface
- Interior use
- Matt black finish

Metallic Paint

125ml, 250ml, 500ml

A bright metallic finish for decorating and gilding ornamental plasterwork, wood, metal railings, picture frames, models, fleur-de-lis, memorabilia and furniture.

- Tough and durable
- Washable surface
- Fast drying
- For interior and exterior use

Gold

Antique Gold

Silver

Satin Black

125ml, 250ml, 500ml, 1Ltr, 2.5Ltrs

Provides an attractive, soft black satin finish for interior and exterior wood and metal. Its durability makes it ideal for wrought-iron work, doors, gates and steel fabrications, as well as decorations, picture frames and more.

Matt Black Paint

125ml, 250ml, 500ml, 1Ltr, 2.5Ltrs

A non-reflective finish ideal for all interior surfaces including beams, decorative ironwork, stage scenery and darkrooms. Ideal for wood and metal. Matt black finish.

Aluminium Paint

250ml, 500ml, 1Ltr

Provides long-lasting, heat-resistant protection for interior and exterior surfaces. You can use it on metal and wood, on surfaces including car wheels, gates, railings and pipework.

- Heat-resistant to 150°C/300°F
- Reflects heat from surfaces

Vinyl Matt Emulsion

1Ltr

**WATER
BASED**

Blackfriar Vinyl Matt Emulsion provides an attractive and hard wearing protective finish for interior use. It's easy to wash and ideal for walls and ceilings and most surfaces including plaster, brickwork, cement, concrete, stucco and wallpaper. Available in Matt white and black.

Fungi-Shield

1Ltr, 2.5Ltrs

**WATER
BASED**

A washable, biocidal paint for use against algae, mould and fungi on internal surfaces such as bathroom and kitchen walls and ceilings.

- Quick-drying
- For internal areas of high humidity
- Washable
- White matt finish
- HSE 7868

Line Marking Paint

400ml*, 750ml (both aerosol)

Line Marking Paint for car parks, factories, sports fields, sports courts, building sites and more. Designed for interior and exterior use.

- Rapid one coat coverage
- Easy upside down spray action
- Effective in high traffic areas
- Non-clogging nozzle

White

Yellow

Professional Range

Tough paints for the most demanding jobs

Concrete Repair Mortar

5kg

A two-pack, high performance, quick hardening repair mortar for damaged and eroded concrete, masonry and brick surfaces within heavy traffic areas. Ideal for filling cracks, holes and large voids. Perfect for roads, ramps, car parks, driveways, pavements, loading bays and warehouse floors. Resists common chemical spillages including petrol, dilute acids, caustic soda and mineral oils. Indoor and outdoor use. Natural grey appearance (as illustrated in photo above).

Damp Proof Primer

5Ltrs

A two-pack, moisture resistant membrane for priming damp concrete floors and screeds prior to coating with Blackfriar Professional High Traffic Floor Paint. Works by locking in moisture, allowing earlier application of floor coatings. Designed to save time - allows for earlier application of coatings when floors are damp. Ideal for porous concrete and screed surfaces. Indoor and outdoor use. Clear gloss finish.

Oil Tolerant Primer

5Ltrs

A two-pack, specialist primer for surfaces with residual oil contamination. Ideal for concrete floors and screeds, promotes adhesion prior to coating with Blackfriar Professional High Traffic Floor Paint. Works over all types of oil stain. Ideal for porous concrete floors and screeds. Indoor and outdoor use. Clear gloss finish.

Acid Etch

5Ltrs

A preparation solution for use on concrete and screed floors prior to sealing, coating or painting. Removes excess lime dust (laitence) which can interfere with the adhesion of floor coatings. Etches power floated, very smooth, hard or chemically treated concrete floors to key the surface and improve the adhesion of floor coatings. Apply with a stiff bristled brush or squeegee mop.

Floor Sealer

5Ltrs

A clear, alkyd sealer for use underneath our Anti-slip Floor Paint and Polyurethane Floor Paint on porous surfaces. Can also be used on porous brickwork underneath our Anti-Climb Paint. Aids by penetrating, binding and sealing the bare surface ready for overcoating. Binds, seals and stabilises friable surfaces. Designed for bare / concrete floors. Indoor use (outdoor use possible when using exterior grade topcoat). Clear Gloss finish.

**WATER
BASED**

Floor Sealer

5Ltrs

A clear, water-borne sealer for use beneath Blackfriar Professional Acrylic Floor Paint on porous surfaces. Aids by penetrating, binding and sealing porous surfaces for overcoating. Can be used as a dust proofer. Designed for bare / concrete floors. Suitable for brick, masonry and concrete surfaces. Clear Gloss finish.

Polyurethane Floor Paint

250ml*, 500ml, 1Ltr, 2.5 & 5Ltrs

Protects and transforms floors with an attractive, hard wearing gloss finish. Ideal for most surfaces including wood, concrete, cement, metal and brickwork.

- Specially formulated to resist oil and grease.
- Ideal for foot and light traffic areas.
- Can be applied to previously painted surfaces.
- Indoor and outdoor use.

Available in the full range of RAL, NCS and BS4800 colours upon request (5Ltr only) and the following standard colours:

White

Light Grey

Mid Grey

Dark Grey

Black

Tile Red

Green

Yellow (1 & 2.5L only)

* Tile Red only

Acrylic Floor Paint

1Ltr, 2.5 & 5Ltrs

Protects and transforms floors with an attractive, hard wearing tough and durable finish. Ideal for most surfaces including wood, concrete, asphalt and tarmac in light traffic areas. Low odour - ideal where paint odours present an issue. Suitable for previously painted surfaces. Indoor and outdoor use. Semi-Gloss finish.

Available in the full range of RAL, NCS and BS4800 colours upon request (5Ltr only) and the following standard colours:

White

Mid Grey

Black

Tile Red

Green

Anti-Slip Floor Paint

1Ltr, 2.5 & 5Ltrs

A tough, durable, high opacity floor coating. Contains special aggregates for outstanding slip resistance. Suitable for concrete, masonry, wood and metal surfaces. Specially formulated for foot and light traffic areas. Semi-Gloss aggregated finish for outstanding slip-resistance. Indoor and outdoor use.

White

Light Grey

Mid Grey

Black

Tile Red

Green

Yellow (1 & 2.5L only)

Epoxy Floor Primer

5Ltrs

A two-pack, water-based primer which promotes adhesion on difficult and well worn surfaces prior to applying Blackfriar Professional 2-pack floor paints.

WATER
BASED

High Traffic Floor Paint

5Ltrs

An exceptionally hard-wearing, high performance, easy-to-clean, solvent-based 2-pack floor coating, ideal for indoor and outdoor use. Resists grease, oil and solutions of acid and alkali. Minimises disruption due to rapid drying time - vehicular traffic can use after just 3 days. Can be applied over concrete, metal, brickwork and stone. For indoor and outdoor high traffic areas. Semi-Gloss finish.

Available in the full range of RAL, NCS and BS4800 colours upon request (5Ltr only) and the following standard colours:

Grey

Tile Red

Epoxy Floor Paint

5Ltrs

A two-pack, exceptionally hard-wearing, low-odour heavy duty floor coating ideal for heavy traffic areas. Outstanding resistance to oil, chemicals, solvents and abrasion. Designed for heavy traffic environments. Can be applied over existing surfaces such as wood, metal, concrete, masonry and asphalt. Indoor use only. Gloss finish.

WATER
BASED

Available in the full range of RAL, NCS and BS4800 colours upon request (5Ltr only) and the following standard colours:

Grey

Tile Red

Heavy Duty Varnish

2.5 and 5Ltrs

A two-pack varnish that protects and transforms floors and work surfaces with a tough, hard wearing and professional finish. Resists dilute acids and alkalis, grease and chemicals, making it ideal for use in sports halls, gymnasiums and on bar tops. Clear, durable, water-based polyurethane finish. Low odour, non-yellowing. Chemical and stain resistant. Ideal for gymnasium floors. Suitable for indoor use on wooden floors, furniture and concrete surfaces. Available in Gloss and Satin finishes.

WATER
BASED

Line Marking Paint

1Ltr, 2.5 and 5Ltrs

A quick drying, long-lasting line marking paint for bare concrete, asphalt and painted floors. Ideal for factories, schools, car parks and public areas. Gives a durable finish with excellent resistance to abrasion and harsh cleaning products. Indoor and outdoor use. *Line Marking Paint is also available in aerosol format (see page 37).*

White

Yellow

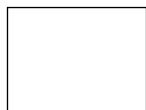

Solar Reflective Paint

5Ltrs

Specially formulated reflective paint designed to reflect sunlight from roof dark coloured roofs. Ideal for stable felt, bitumen, metal, concrete, brick and more. The aluminium finish is bitumen based making it most suited to weathered roof membranes while the white finish is water based making it perfect for adding solar reflectivity to new roofs. Self-priming 2 coat system. For outdoor use.

White

Aluminium

Anti-Climb Paint

1Ltr, 2.5 and 5Ltrs

A thick, non-drying coating for parapets, ledges, down comers, pipes, gutters, window sills, fencing and walls. Deters potential intruders by making surfaces virtually unclimbable, whilst marking hands and clothing. Can be applied to brickwork, concrete, plastic, metal or wood. For outdoor use. Semi-Matt finish.

Black

Anti-Graffiti Lacquer

5Ltrs

A high-performance, two-pack, clear anti-graffiti coating for external surfaces. Provides an outstanding permanent (non-sacrificial) and easily cleaned protective surface. For use on all types of external surface including wood, brick, concrete and natural stone.
