

# BENCHMARK Connector Corp.

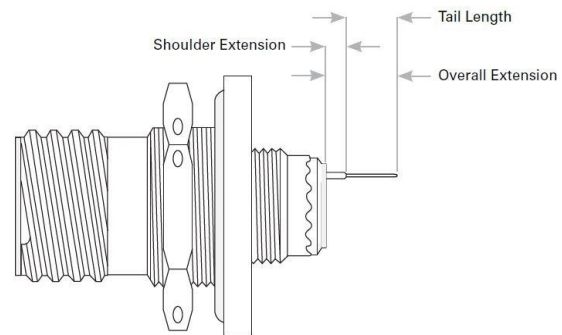

Let Benchmark take a rugged, highly reliable Military Spec connector and make it even better by adding PCTail contacts.

Eliminate those bulky pigtails, maximize signal integrity and do away with the labor involved in crimping each termination by using PC Tail contacts for a direct board mounting solution.

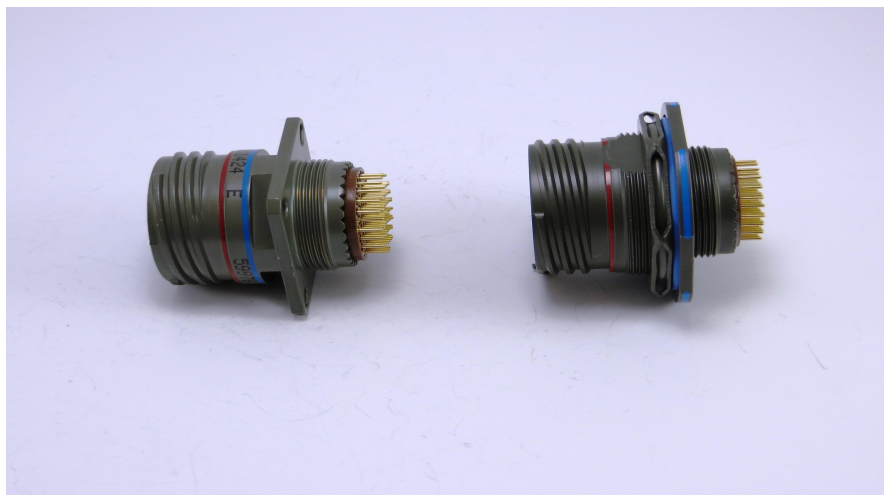

Just provide your Benchmark connector specialist with your mounting hole diameters and the three dimensions listed below on the preferred shell style and we will do the rest.

Wall Mount Receptacle  
PC Tail Contact Extension
