Tuesday 27th June 2017; Bet365 Stadium, Stoke on Trent

North Staffordshire 6th International Neuropsychiatry Conference

Huntington's Disease: New Horizons

After the huge success of our previous HD conferences held centrally at bet365 Stadium, Stoke-on-Trent we are pleased to announce that we are returning to this venue in 2017.

This event will attempt to give a balanced and realistic account of what is on the horizon for our children without overlooking the struggles of our patients as they continue with their journey. As it has always been emphasised in our previous events, there is no better alternative to patients, clinicians and scientists working together as one team, if we are to deliver best care and achieve disease modification.

We are pleased to offer you a selection of support packages, there are a limited number of opportunities available and applications will be processed subject to availability.

**If your organisation are interested in supporting the conference
please contact us to discuss the best package for you:**
