

FAIRWAY HYDRAULICS

Mobile
Product
Applications

OUR PRODUCTS

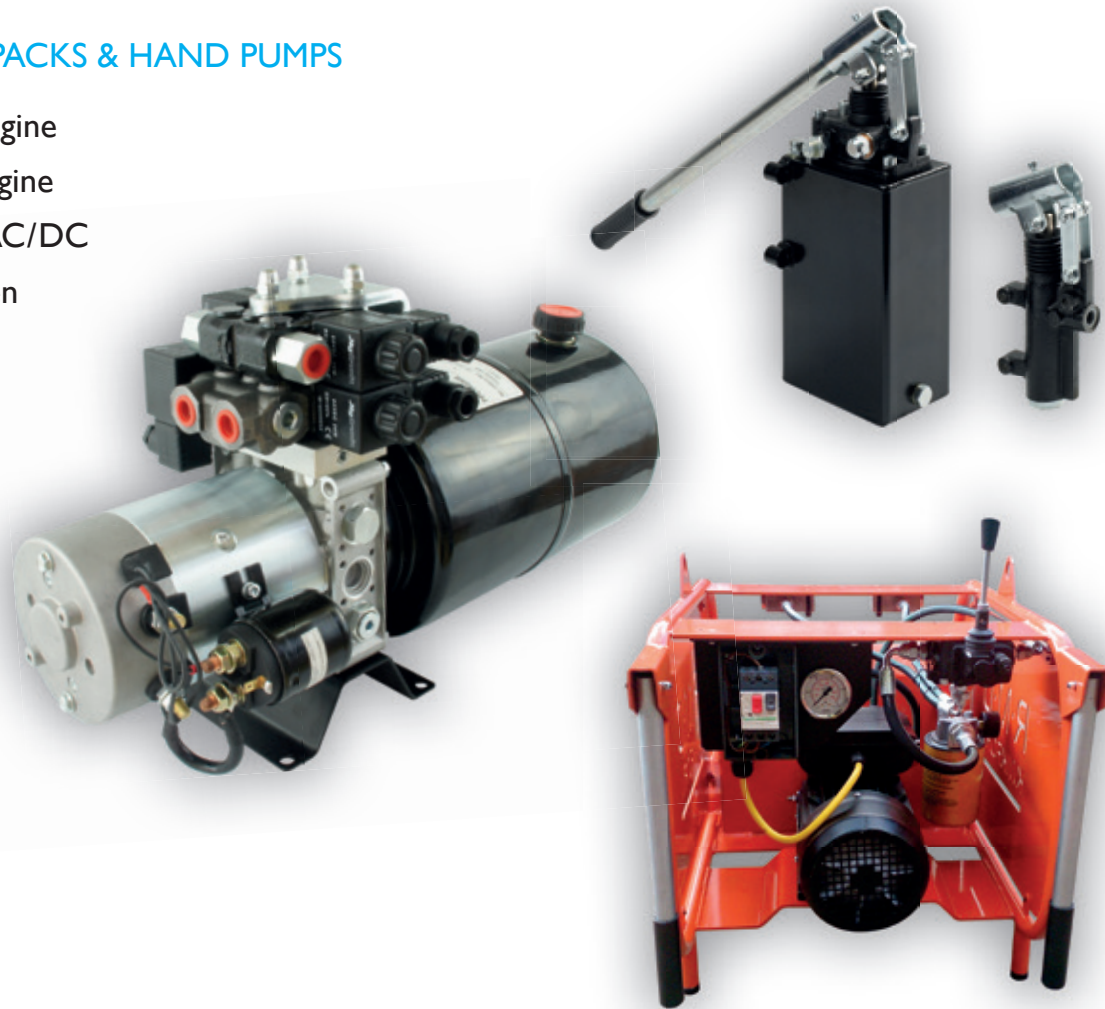

SCREW-IN CARTRIDGE VALVES

- Pressure Relief & Reducing
- Sequence
- Motion Control
- Check & Shuttle
- Flow Regulators/Dividers
- Solenoid Directional/
Proportional
- Unloading
- Motor Mounted-Integrated Circuits

POWERPACKS & HAND PUMPS

- Diesel Engine
- Petrol Engine
- Electric AC/DC
- Air Driven
- Specials

OUR PRODUCTS

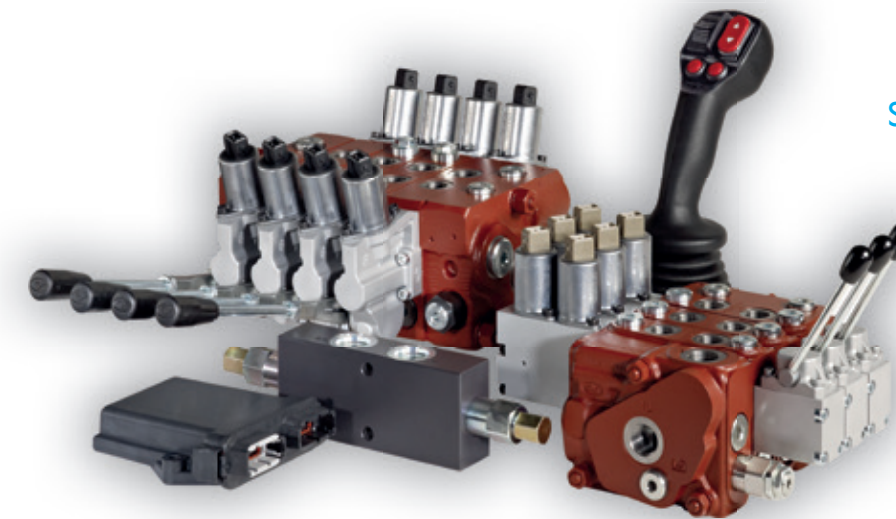

MANIFOLDS

- In-house Prototyping & Machining
- In-house 3D Design
- Blanking, Tapping & Crossover Plates
- Cetop 3, 5, 7 & 8
(also with relief & unloading)
- Stacking Systems
- Modules
- Subplates
- Specials

MONOBLOCK & SECTIONAL VALVES

- Monoblock
- Sectional
- Diverter
- Load Sensing

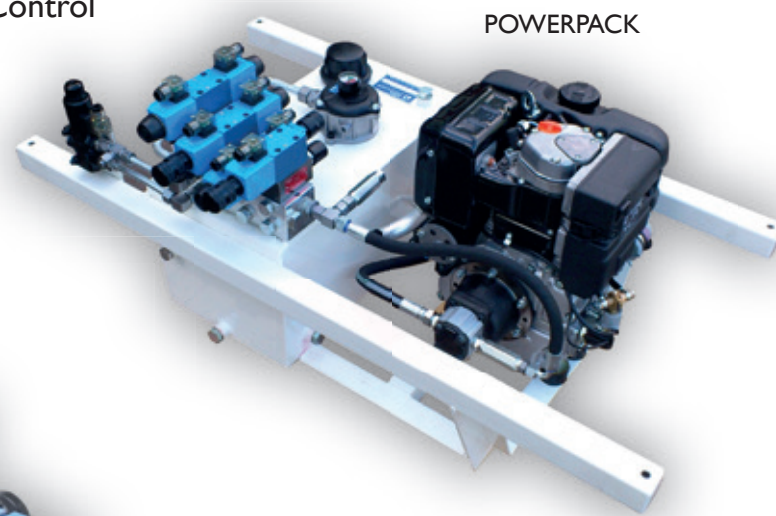

CETOP VALVES

- Cetop 3, 5, 7 & 8
- Directional Valves
- Modules

GROUND SUPPORT

- Traction Drives
- Braking, Steering & Suspension Control
- Conveyor Belt & Roller Drives
- Fan Drives
- Monitor Power Assistance
- Engine Driven Powerpacks

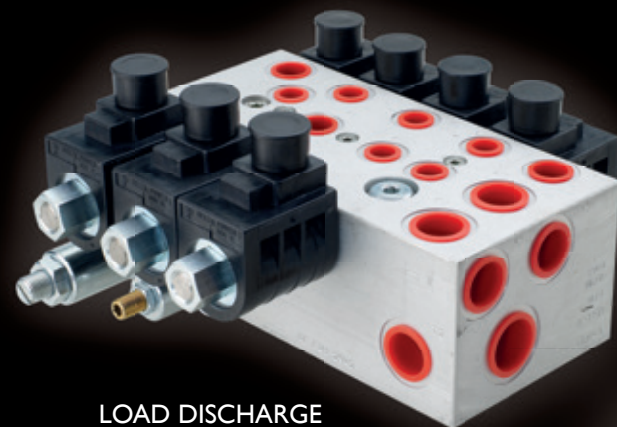

RAIL INFRASTRUCTURE

- Wheeled Road Rail Control
- Tracked Road Rail Control
- Road Rail Vehicle Attachments
- Load Holding & Boom-Loc Control
- Brake Control
- Space Guard Control

ROAD SWEEPERS

- Sweeper Brush Control
- Load Discharge Control
- Proportional Brush Speed Control
- Ancillary Functions
- Back Up Pump Assemblies
- Water Pump & Super Wash Control
- Brush Motors

LOAD DISCHARGE
MANIFOLD

SOLENOID
VALVE

BRUSH CONTROL
MANIFOLD

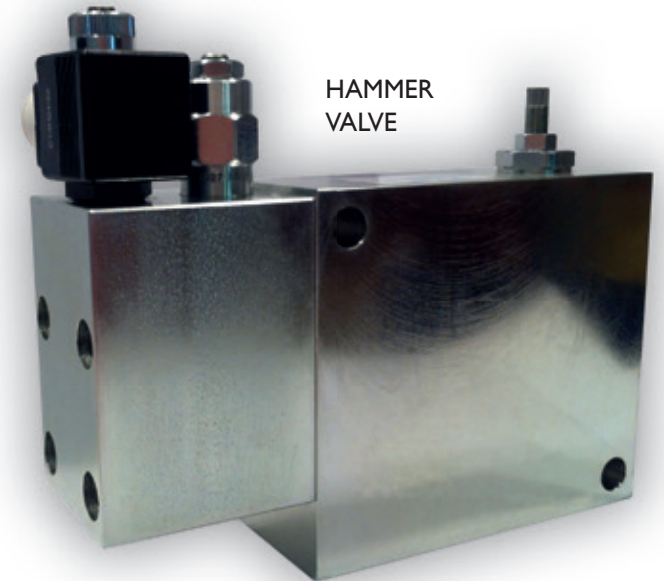

CONSTRUCTION EQUIPMENT

SCREW-IN
CARTRIDGE
VALVES

- Load Holding & Control (Boom-Loc)
- Tipping Control
- Pump Unloading Control
- Hot Oil & Brake Shuttle Control Systems
- Attachment Control
- Pilot System Control

HAMMER
VALVE

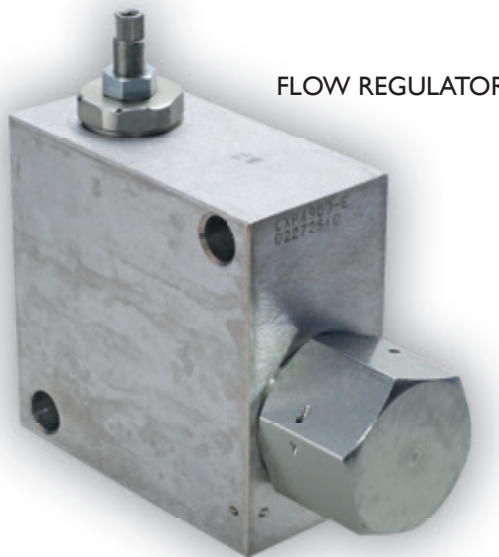

MINING & QUARRY

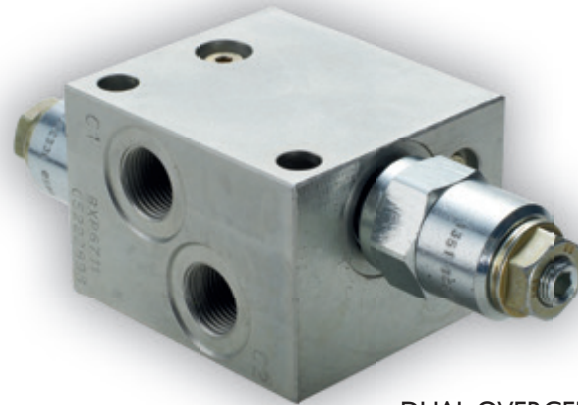

Load Hold Control
 Bolting Applications
 Lifting Platform Control
 Drilling Machine Control
 Crushing/Conveyor Control

CARTRIDGE VALVE

FLOW REGULATOR

DUAL OVERCENTRE VALVE

TANKER & BULK HANDLING

Pump & Discharge Control
 Suspension Control
 Hydrostatic Motor Drives
 Special Circuit Control

BESPOKE MANIFOLD

FLOW CONTROL VALVE

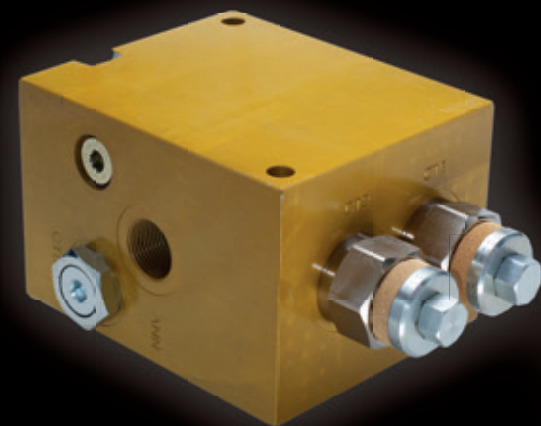

CETOP 3 DIRECTIONAL CONTROL VALVE

MATERIALS HANDLING & ACCESS PLATFORMS

Access Control
Steering Control
Lifting/Lowering Function
Specialist Applications

REGEN MANIFOLD

OVERCENTRE VALVE

LEVER VALVE

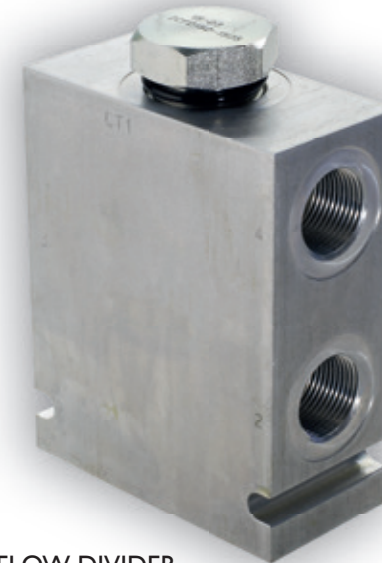

WASTE HANDLING & ENVIRONMENTAL

Overcentre/Load Control
Pump Control
Regen Circuits
Compaction Systems
Bin Lift/Tip Controls
Stabilizer Control

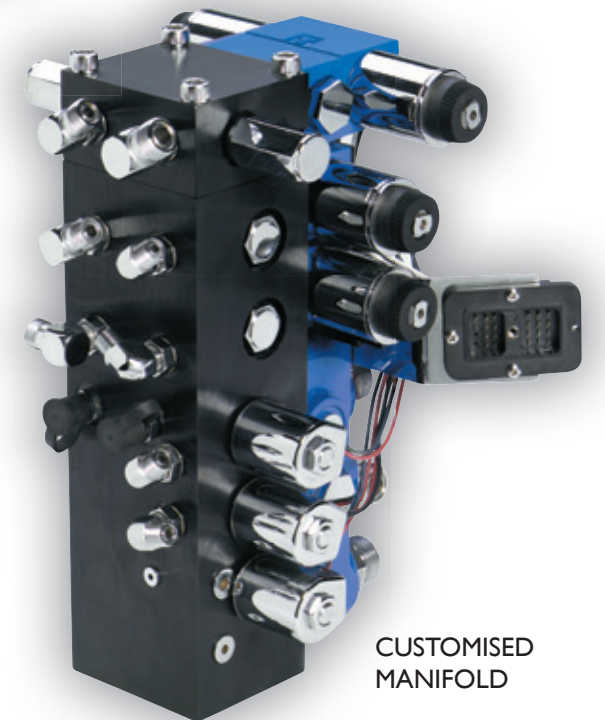

SOLENOID DIVERTER VALVE

FLOW DIVIDER

CUSTOMISED MANIFOLD

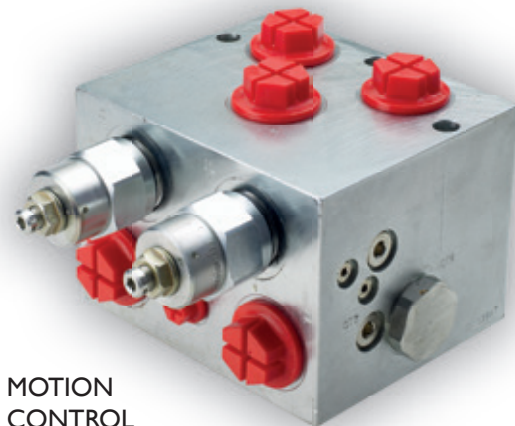

MARINE & OFFSHORE

Dredger Bucket Circuits
 On Board-Mixers
 Winch Control
 Steering Systems
 Engine Driven Systems

WINCH
 MANIFOLD

MOTION
 CONTROL
 VALVE

UNLOADING
 VALVE

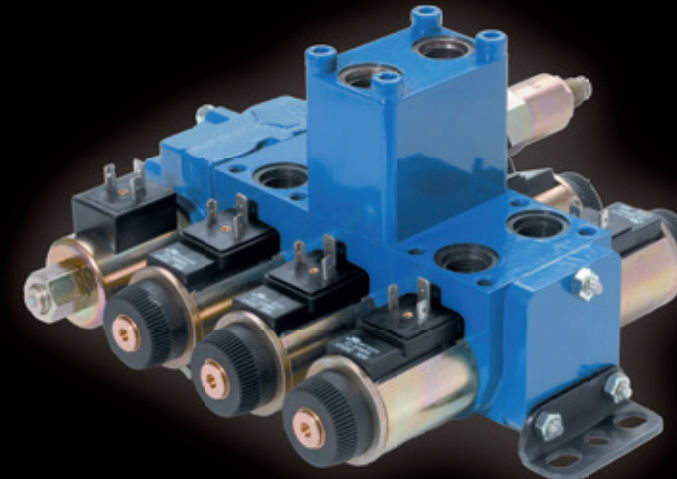

AGRICULTURAL & FORESTRY

Brush Blade Control
 Closed Loop Transmission
 Attachment Applications
 Lift Control
 Pilot Functions
 Difflock Control
 Conveyor/Spinner Applications
 Tool Take Off Circuits
 Suspension Control

BOOM-LOC

DIRECTIONAL
 CONTROL VALVE

PILOT OPERATED
 CHECK VALVE

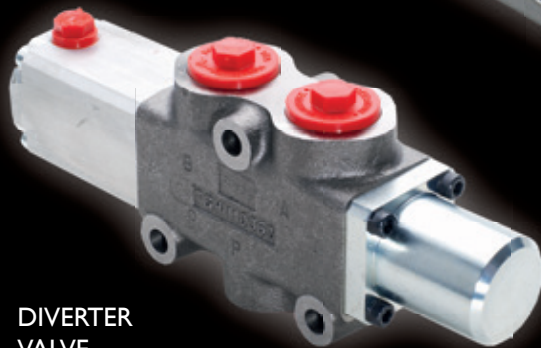

TRANSPORT & SPECIALIST VEHICLES

- Tail Lift Platforms
- Winch Control
- Double Deck Systems
- Stabiliser Control
- Brake Circuits
- Tilt Control

SEQUENCE VALVE

DIVERTER VALVE

MODULAR POWERPACK

KIT SELECTION

The knowledge and expertise of Fairway Hydraulics' Technical team enables the design of bespoke kit combinations, always using the very best products, always with competitive pricing.

From powerpacks to valves, filtration to pipe work, we can combine all your system requirements, delivered in kit form, to satiate even the most demanding of applications.

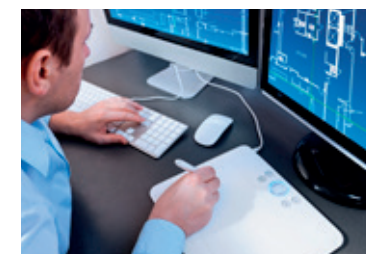

ABOUT US

With over 40 years' success in the Industry, Fairway Hydraulics has become synonymous with quality components and excellent service within both the mobile and industrial markets.

Having access to the worlds' market leading brands, and with in-house design and manufacture, our customers are confident the right solution for their individual requirements will be realised through our dedicated involvement.

With our experienced Technical team on hand offering support with new and existing applications, from system design to product selection, Fairway Hydraulics ensure consistent client satisfaction and continue to enjoy an enviable reputation.
