About Us

Established in 1978, the name Flomatic has been synonymous with Customer Service and Client Satisfaction. At that time we were, and still are, one of a few recognised suppliers of Methylated Spirit. In those early days we supplied not only Trusthouse Forte, but other hospitality industry icons such as the Savoy, Simpsons in the Strand and the Ritz to name but a few. We continue to trade with over 30 years' experience available in all fields, providing a national Restaurant Fuel service, Ambiance lighting and Specialist Kitchen Supplies.

Flomatic is now a major importer of Chafing Fuel into the UK and, as such, is able to offer you outstanding value for money - whatever quantities you require.

We hope you find our Product Catalogue helpful and informative. If you have any questions or would like further information, please contact us by telephone, email or via the website. We will be more than happy to help.
