

Blending and custom fluid Manufacturing and filling services

At Think Ink Solutions Ltd we don't see ourselves as just a supplier, we see ourselves as an extension of your Company.

We can provide a toll manufacturing service to satisfy the needs of multi-national manufacturers as well as independent companies. This service offers a cost effective and efficient third party service for a wide range of solutions such as solvent based blends, 100% solid and standard aqueous products.

Our production batch vessels vary from 25-1000 Litre and with our wealth of experience in the chemical industry, we are able to assist you every step of the way. We are committed to ensure all discussions relating to Toll Manufacturing projects are carried out in the strictest of confidence.

If you are considering outsourcing to meet short term contingencies or development of longer term strategies please contact us.

Who we are

About Us

Think Ink Solutions is a UK based company offering a variety of products for many ink jet applications. From **Eco Solvent to Hard Solvent, Grand Format, Textile, Postal, UV, Coding & Marking** and **water based inks** we have a comprehensive range of products.

Our experienced development team are able to offer custom ink formulations for the Graphics and Industrial markets.

Think Ink Solutions Ltd has broadened the range of services to include a Blending and Toll manufacturing service for a wide range of solutions such as solvent based blends, 100% solid and standard aqueous products.
