VARI-DEPTH CARTONS

Vari-depth cartons have horizontal score lines that allow the carton height to be easily reduced. Simply fill the carton to the required depth, cut the corners of the box to the nearest score line and fold over to reduce voidfill and transport costs.

Using a Vari-depth Carton

Fill the box to the required depth

Cut the corners of the box to the nearest crease

Fold over and seal, saving voidfill and transport costs

SINGLE WALL VARI-DEPTH CARTONS

Vari-depth cartons have extra scores to enable you to easily reduce the height of a carton.

A 100% Recyclable Product

Dynasafe is a leading brand of innovative suspension and retention packaging. The package contents are held firmly in place by a strong, transparent film. This removes the need for bubble wrap and voidfill.

DYNASAFE ONE PIECE RETENTION

When using Dynasafe, the average packing time per order is reduced from 3 minutes to only 30 seconds!!

Place the retention pack with the side down on the table

Fold the film covered flap over so that the film faces you

Fold the flap to loosen the film

Insert your item under the layer of film in a central position

Fold over the flap to tension the film

Fold up the flaps

fold up the lid

Wrap the lid around the product

Secure the locking flap to complete the safe packing of your product

DYNASAFE TWO PIECE RETENTION

2 piece retention packaging comprises of a quick self-assembly carton with a crashlock base, and a retention insert which secures your product very simply and easily, reducing your packing times.

Place the retention pack with the film side up on the table

Fold the flap to loosen the film

Insert your item under the layer of film in a central position

Fold the side flaps away from you to tension the film

Fold the side flaps around behind the board to fully secure the product..

...like so

fold up the end flaps on the crease

Place the retention pack in the box and fold the top flaps over

Secure the locking flap to complete the safe packing of your product

Dynasafe offers amazing versatility, providing solutions for packing an incredibly diverse range of products. It is ideally suited to the technology & pharmaceutical markets.

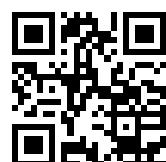

Pharmaceutical

Automotive

A HEAVY DUTY SINGLE WALL CARTON

Dyna-board is our exciting new alternative to standard Double wall 'BC' flute grades.

Dyna-board is 30% more compressed than 'BC' flute and the perfect product for customers who are looking to cut their costs, make better use of their warehouse space, plus enhance their environmental and sustainability commitments.

Major Benefits:

- Circa 30% more cartons on a pallet = less storage space required
- 30% more cartons per delivery = reduced carbon footprint
- Enhanced print quality = a better perception of your quality and capabilities to your customers
- Heavier Kraft both inside and outside the box = improved appearance
- Reinforced fluting = greater moisture resistance
- The bottom line! approximately 20% direct cost savings!

DYNA-BOARD CARTON SIZES

Please note that Test Valley Packaging can create bespoke carton sizes in Dyna-Board with your company branding.

DYNA-BOARD CARTON SIZES				
CODE	SIZE (Inches)	SIZE (mm)	Pk	PALLET
