**M. Jahangir Chauhdary (Late)**  
**The Founder of GM Cables**

Whose vision of serving the Nation through utmost  
humanity and honesty continues to be driving force  
behind all our Endeavors

**M. Chauhdary**

It gives me immense pleasure to mention that **GM Cables & Pipes (Pvt) Ltd.** has completed thirty six years of operation successfully with dedication and professional expertise of our team. It has enabled us to establish our-selves as one of the most reputed Cable, Pipe and Duct manufacturer in Pakistan.

After a humble start, we have made note-worthy achievements through dedication and hard work in the last three and a half decades. Our untiring journey has enabled us to offer multi dimensional economical solutions to our worthy customers. We are also on way to self-sufficiency in indigenous production of high quality Hi-Tech products.

Following the international quality standards in whatever challenge we take on, all our products are manufactured under strict quality control guidelines to insure the highest possible quality, consistency and reliability. The credit for our brand name is dedicated to our selfless and proficient workers, vast network of dealers and patronage of our worthy clients.

No matter how many successes we accrue, one thing remains paramount is the co-operation, support and participation of our worthy clients. Thanks for this!

1. Slotted ducts
2. Non slotted ducts

## GM Cables

**GM Cable** is a dependable name in cable field all over Pakistan. We are specialized in manufacturing all kinds of cables according to BSS and IEC.

We have installed latest machinery which is equipped to produce the products fully matching international standards because we know right machinery is key to quality production.

Due to usage of 99.99 % pure copper and best quality PVC our cables provides safety to valuable assets and your loved ones, savings in electricity consumption and increases performance of electrical equipments.

Quality consciousness, latest machinery, well trained workers and BSC Electrical Engineers have earned us customer's trust, which in turn is the basis of our presence all over Pakistan.

## GM Power Cables

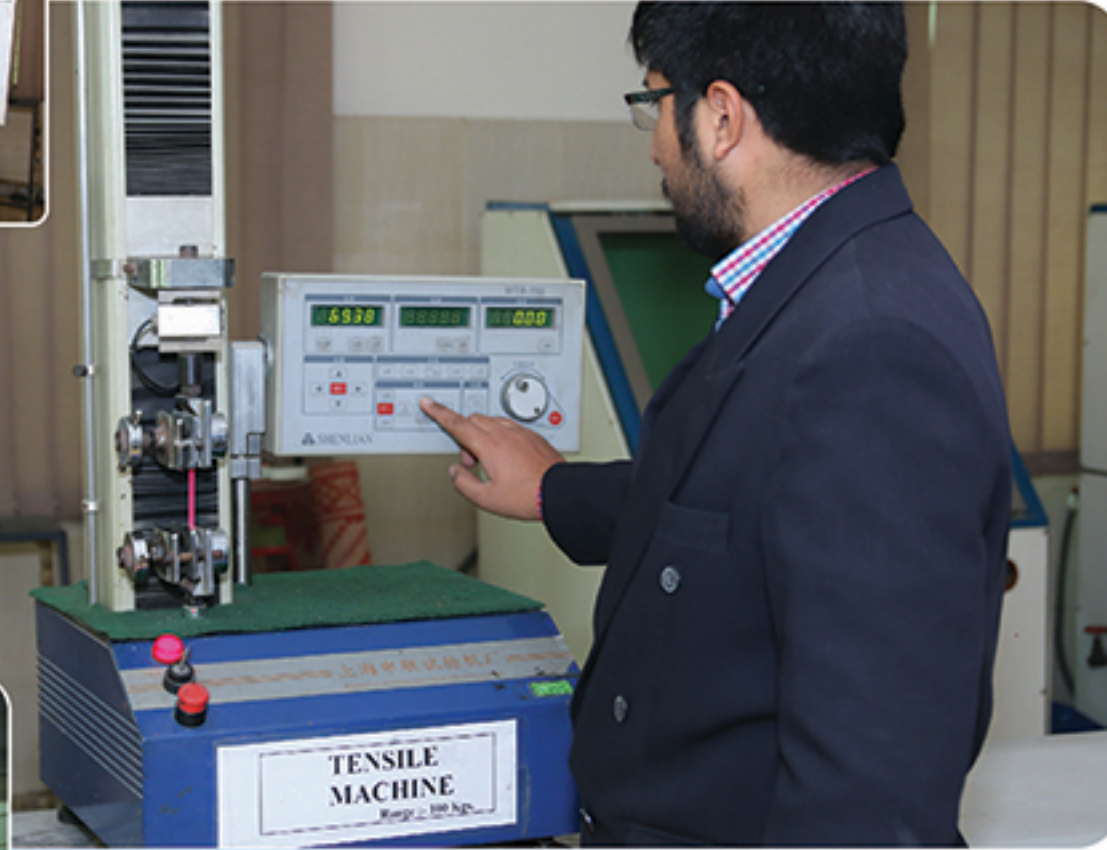

Various types of our high quality Cables:

- Fire resistant
- Fire retarder
- Low smoke  
with 99.99 % pure twisted copper

## Quality Assurance

We have adopted and implemented quality management system complying with international standards. The quality assurance engineering team is dedicated to meet international standards because we never compromise on quality.

## Quality Assurance

The quality assurance work starts with selection of best possible raw material. It continues with verification at every step of production. At final stage our ready to use goods are put through further test using hi-tech equipments. Keeping an eye on modernization and industrial evolution we are upgrading our engineers team by training them in every possible way, an aspect which is contributing factor for assuring best quality. This procedure guarantees safety of our valuable customer's precious assets.
