

Cartes 2011 - No strikes, no snow?

Cartes seems to have come around very quickly this year. This annual exhibition will take place next week from Tuesday 15th to Thursday 17th November at the Paris-Nord Villepinte Exhibition Centre.

Künnecke will be on stand 3 E 115 and will be introducing their very latest card mailing system - the **CASSera**. This new addition to CASS range of card attaching and mailing machines is the first heavy duty basic card mailing solution in the industry.

CASSera characteristics

- Designed to run in a 24/7 environment
- Cycle speed of up to 2,000 cards/hour
- Type of paper input: cut-sheet and printer
- High flexibility with easy set-up
- Industrial design
- Operator friendly
- Possibility to use cost-effective consumables
- Opportunity for upgrading

Kuennecke will also be exhibiting their CISS technology for card sorting and inspection as well as their PIN handling equipment.

Wednesday evening will see Künnecke's traditional party with beer brought to Paris from their local brewery in Holzminden.

The weather forecast is good and no industrial action seems to be planned in the transport sector. There has never been a better year to visit Cartes! I hope to see you there.

Kind regards,
Lindsay.
