

Silhouette

Sleek, satin-black, aluminium extrusion disappears behind the front face of the Aquavision to give the look of a “floating” television. Ideal for retro-fit installations or for use where “flush-mount” is not an option. Available with any of the 4 standard glass finishes as shown below. Also available with VESA mount fixings. Waterproof to IP66.

Available with the following features:

Genesis:

Genesis is the first choice for stand alone television projects. Freeview Tuner, 2 x HDMI Inputs, Scart, Component and a built-in amplifier provide a wide range of possibilities.

Nexus:

Nexus sets the industry standard for home integration televisions. With FreeSat, RS232 and Discreet IR Control as standard, the Nexus range will communicate with all leading home control systems including Crestron, Control 4, AMX, RTI, etc.

Pinnacle:

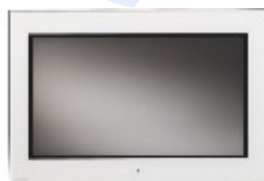

Pinnacle from Aquavision offers the ultimate waterproof, flush in-wall television for the most demanding applications. Freeview, HD, Discreet IR Commands & RS232 Control all come as standard along with the latest Android Smart TV IP Internet access. This Aquavision also converts its wired IP access into a useful Wi-Fi hotspot.
