## BIOCLEAN COOL-LITE AQUA GREEN

Dual coated, body-tinted glass with self-cleaning and additional solar properties.

A new high performance glass for conservatory roof applications, blocks up to 78% heat thanks to the advanced solar control coating, helping to keep conservatories even cooler. Enjoy a pleasant Aqua Green appearance whilst maximising natural light.

An extremely versatile product, combining effective self-cleaning with high performance solar control, providing a long term effective solution for roof glazing and hard to reach areas.

The glass has a slight green tint against a white sky, but is otherwise of a neutral appearance.
