MEASURING GUIDE

The following guide will help you to correctly measure your child's feet. Simply follow these 6 steps.

PLEASE NOTE: Page 1 only measures up to size 9. For larger sizes you will need to print page 2 and join the pages as instructed.

Step 1

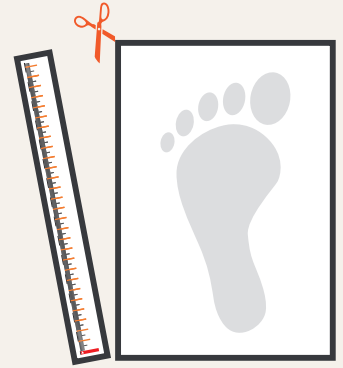

PRINT OUT THE GAUGE

It is **IMPORTANT** that your printer is set to 100%. Once printed, to make sure you have the correct size please check against a ruler and compare the millimetre markings.

Step 2

Cut along the line as indicated to detach the width measuring tape.

Step 3

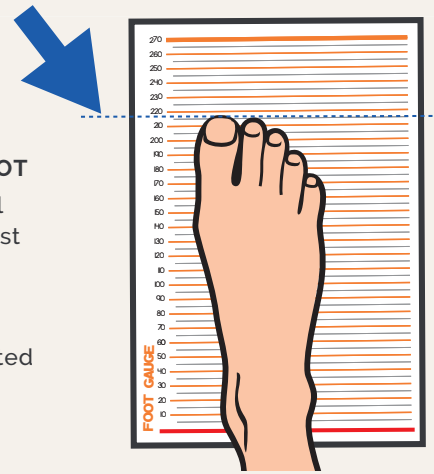

Lay the chart on a hard flat surface. It is important to keep the chart flat with no creases.

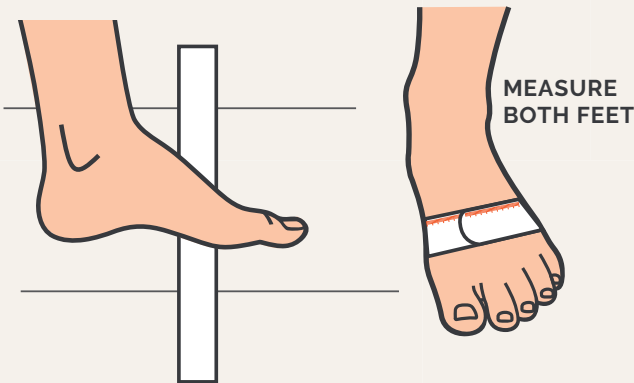

Step 4

MEASURING THE LENGTH OF THE FOOT

The back of the heel should line up against the red line at the bottom of the chart. Try to stand upright with weight distributed between both feet.

Step 5

MEASURING THE WIDTH OF THE FOOT

Wrap the width measure around the widest part of the foot (diagonally across the foot from the bottom of big toe joint to the little toe joint).

Step 6

CALCULATING YOUR SHOE SIZE

Enter the length and width measurements of the biggest foot into our size calculator at www.treads-shoes.com

Click the calculate button and we will work out the best shoe size for your child.

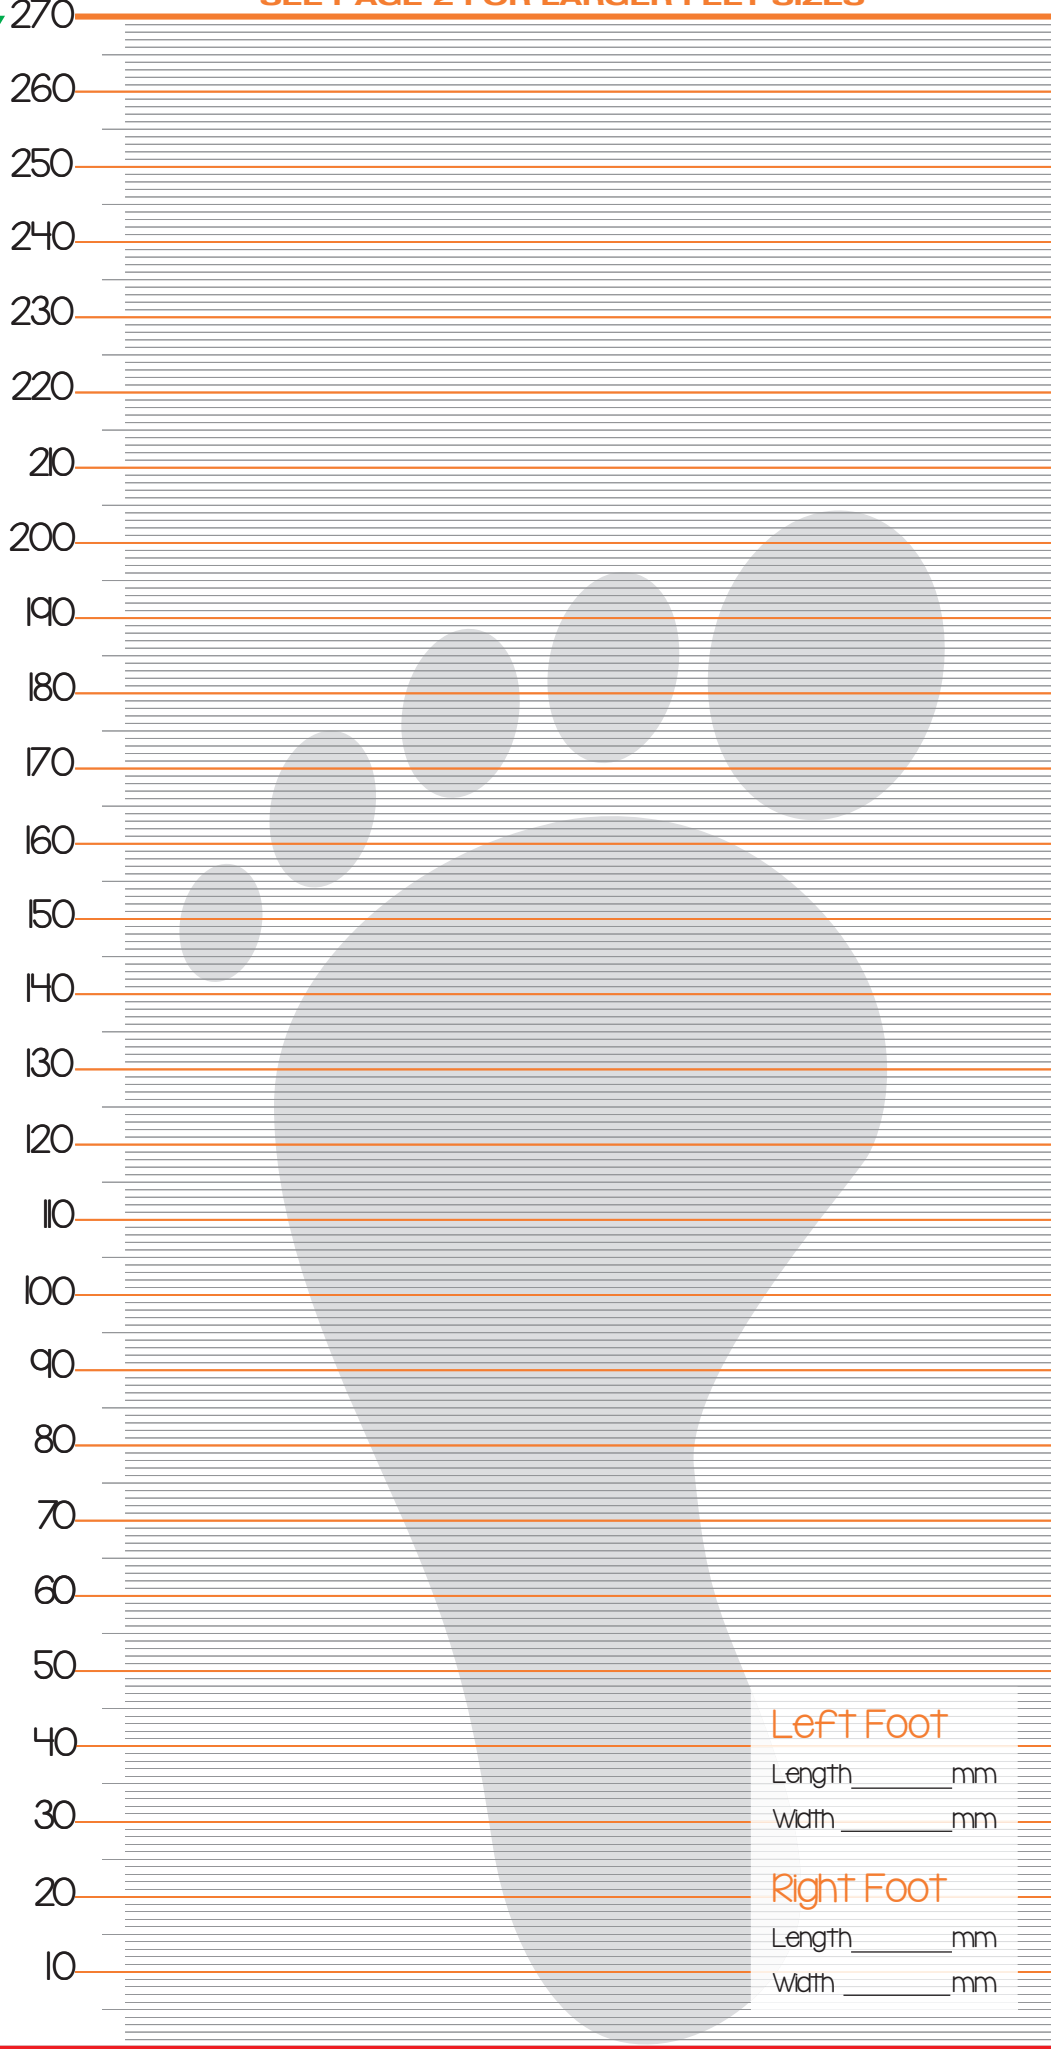

SEE PAGE 2 FOR LARGER FEET SIZES

PLEASE CUT OUT FOR WIDTH MEASUREMENT (PLEASE CUT OUT BEFORE ATTACHING PAGE 2)

FOOT GAUGE

Left Foot
 Length _____ mm
 Width _____ mm

Right Foot
 Length _____ mm
 Width _____ mm

IMPORTANT! WHEN PRINTING OUT THIS CHART, PLEASE ENSURE THAT YOU PRINT AT 100% DO NOT SCALE TO FIT PAGE

VERY IMPORTANT! POSITION THE HEEL TO THE BACK OF THIS LINE

MEASURE FROM HERE ▲

MAKING YOUR FOOT GAUGE LARGER

1 CUT ALONG THE GREEN DOTTED LINE BELOW

2 LINE UP THE HALF GREEN ARROWS FROM PAGE 1 AND 2 TO MAKE A COMPLETE ARROW SEE FIG 1

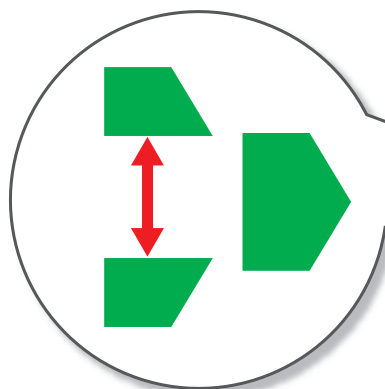

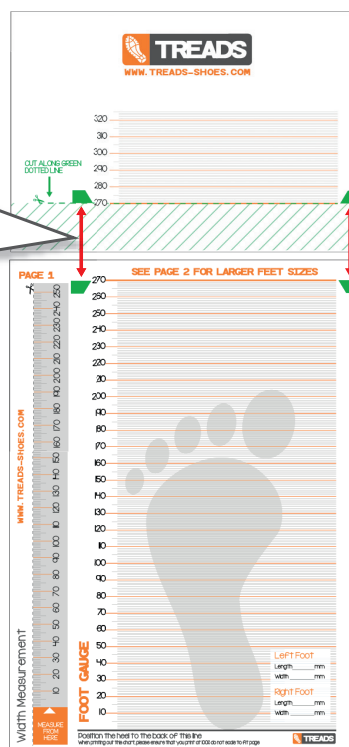

FIG 1

3 ONCE THE ARROWS ARE LINED UP TAPE THE TWO SHEETS OF PAPER TOGETHER TO CREATE THE LARGER FOOT GAUGE
