## BLACKDOWN *for* Land Management

Our arboricultural division offers a specialist range of services nationwide, covering all aspects of tree-related works. We also offer an emergency out-of-hours contact for storm-damaged and hazardous trees.

Blackdown Environmental work with a wide range of clients, from private land-owners to the commercial sector.

We offer a complete work package, from initial site assessments, to all categories of vegetation, site and land clearance in preparation for developments.

Our staff are experienced in the design, construction and resto-ration of systems across complicated terrain. We also offer ecological assessments for protected species and habitats.

Having our own plant machinery on-site assists with project timescales and costs. Blackdown Environmental's staff are trained and equipped to carry out works safely and to a professional standard.
