

Paper Shredding Services Raise Money for Beatson Cancer Charity

October 2016

Since March 2016 Paper Shredding Services has been donating to Beatson Cancer Charity, one of Scotland's leading cancer charities which supports the thousands of patients and their families who visit The Beatson West of Scotland Cancer Centre and its related facilities each year.

The monthly donations are based on how many tons of paper Paper Shredding Services send to paper mills to be recycled.

Following a recent tour of the charity's Wellbeing Centre situated in the heart of The Beatson, Ron Hill of Paper Shredding Services presented a cheque for £1,130 (the amount raised so far) to Joyce Ross, corporate partnerships manager at Beatson Cancer Charity.

Ron said "The arrangement Paper Shredding Services has with Beatson Cancer Charity delivers benefits all round as our donations to the charity

are directly linked to the amount of shredded paper we have recycled each month - the more we recycle the more we donate."

If you would like to help this worthwhile effort and have any amount of paper small or large that needs recycled, please contact us as even the smallest amount will be a most valued contribution. Call us FREE on 0800 071 4000.
