Flexible	BREAK				

There will also be an opportunity to go on a field trip see examples of rural water supply outside Abidjan. There will be a small additional fee and places will be strictly limited – bookings will be taken during the Forum main event.

## *Parallel Sessions*

The parallel sessions have been organised in a way that uses the material submitted to focus on cross cutting topics including: progress in the RWSN thematic areas; hard-to-reach water user groups; different types of implementation and enabling organisations; the practicalities of achieving SDG6 “water for everyone”; plus specialist sessions that will explore topics in more depth. Rather than tracks that participants should follow, they are groupings that make it easier to find and navigate between sessions of particular interest.

### **SDG6: “Water for Everyone”**

Title	Day	Session	Room
<b>Sustainable financial models for universal rural water services in Africa</b> (convened by Oxford University & UNICEF)	Tue	2A	Plenary
