HOTEL AND RESTAURANT

ANNI DI ABERT

Abert nasce nel 1929 a Lumezzane, in provincia di Brescia: Antonio Bertoli dà inizio alla sua storia producendo artigianalmente posate in ottone. Negli anni '30 le materie prime utilizzate sono nichel e alluminio e nel 1950 l'acciaio entra stabilmente nei cicli di produzione, prendendo il posto di tutti gli altri materiali. Negli anni '60 verrà introdotta l'automatizzazione produttiva e nel 1975 Abert sarà la prima azienda al mondo ad ingegnerizzare i processi per la produzione di posate colorate con la combinazione di materiali come ABS, nylon e legno. Nel 1987 la sede si trasferisce a Passirano e nel 1993 acquisisce il marchio Facix e lo storico marchio milanese Broggi, leader di mercato nella posateria e nei complementi d'arredo per la tavola nel settore alberghiero. **Nel 1994** è la prima azienda del settore ad ottenere la certificazione di qualità ISO 9002. Nel 2000 Abert cresce lanciando un nuovo progetto per il canale l'Ho.Re.Ca. con l'introduzione di una ampia gamma di prodotti professionali alberghieri.

Oggi, quasi novant'anni dopo la sua nascita, ancora guidata dalla famiglia Bertoli alla quarta generazione, Abert continua a puntare sull'innovazione, sulla qualità dei propri prodotti, sulla sensibilità e l'ascolto del cliente e sulla sua capacità di mutare insieme al mercato.

Abert pone da sempre al centro della propria attività valori che considera irrinunciabili: l'eccellenza delle materie prime, determinante per la performance dei propri prodotti, l'innovazione sulla base di processi produttivi e tecnologie d'avanguardia, la qualità dei prodotti che produce nei propri stabilimenti, a Passirano, il design che si traduce nella creazione di oggetti unici e che è alla base dello studio di ogni suo nuovo prodotto.

Per vincere le sfide del futuro Abert investe su se stessa e sui propri valori, che esprime con una forte cultura d'impresa ed azioni concrete, impegnandosi nella tutela e nella difesa dell'ambiente e nell'etica dei rapporti economici e sociali.

Abert is founded in 1929 in Lumezzane, in the province of Brescia: Antonio Bertoli starts its story by manufacturing brass cutlery by hand. In the 30's the raw materials used are nickel and aluminium and in 1950 steel enters in the production cycles permanently, replacing all the other materials. In the '60s production automation is introduced and in 1975 Abert is the first company in the world to engineering the processes for the production of colored-handle cutlery with the combination of materials like ABS, nylon and wood. In 1987 the company headquarters move to Passirano and in 1993 Abert acquires the brand Facix and the historical Milanese brand Broggi, market leader in hotel cutlery and tableware. In 1994 it is the first company of the sector to achieve the quality certification ISO 9002. In 2000 Abert grows and launches a new project for the Ho.Re.Ca. channel with the introduction of a wide range of hotel professional products.

Today, almost ninety years after its birth, still leaded by the Bertoli family on its fourth generation, Abert goes on aiming at innovation, quality of its products, sensitivity and listening to its customers and on its capability of changing with the market.

Abert has always placed at the centre of its activities fundamental values: excellence of raw materials, crucial for the performance of its products, innovation on the base of production processes and state-of-the-art technologies, quality of the products it manufactures in its own factories in Passirano, design, that means creation of unique objects and which is the foundation of every new product.

In order to win the challenges of the future Abert invests on its own and on its values that expresses through a strong enterprise culture and concrete action, committing to protect and defend the environment and the ethics involved in economic and social relationships.

SCHEDA TECNICA PROCESSO PVD

CARATTERISTICHE DEL DEPOSITO PVD:

La tecnologia PVD (Physical Vapour Deposition) permette di depositare su articoli in metallo un film metallico di spessore dell'ordine dei 0,2 - 0,5 μm con caratteristiche sorprendenti dal punto di vista decorativo e tecnico.

Da un punto di vista decorativo attribuisce all'oggetto una piacevole colorazione metallica che può spaziare dall'effetto ottone fino al nero in funzione del gas e del metallo utilizzato nella fase di deposizione.

Da un punto di vista tecnico il deposito PVD garantisce:

- elevata durezza superficiale (2000-3000 HV)
- elevata resistenza alla corrosione
- elevata resistenza all'usura, al graffio ed all'abrasione
- assoluta biocompatibilità (processo a impatto ambientale nullo e privo di scarti)
- resistenza ai solventi, acidi, alcali e ai prodotti di uso domestico
- assoluta idoneità al contatto con gli alimenti

PROCESSO PER APPLICAZIONE:

Gli articoli da rivestire vengono inseriti all'interno di una camera di deposizione nella quale viene creata una condizione di vuoto (ambiente pulito e privo di qualsiasi inquinante).

Il processo di deposizione consiste essenzialmente nell'evaporazione, per mezzo di una scarica elettrica localizzata, di un metallo le cui particelle ionizzate e condensate, per effetto dell'energia cinetica e della differenza di potenziale, vengono attratte dal pezzo da rivestire.

La condensazione può avvenire in presenza di un gas di processo introdotto in maniera controllata nella camera.

PVD TECHNICAL PROCESS CARD

PVD DEPOSITION CHARACTERISTICS:

The PVD (Physical Vapour Deposition) technology allows to deposit on metal items a 0,2 - 0,5 μm metal film thickness with remarkable characteristics from the decorative and technical point of view.

From a technical point of view, it gives the object an agreeable metal coloration, ranging from the brass effect to the black, depending on the gas and the metal used in the deposition phase.

From a technical point of view, the PVD deposition guarantees:

- high surface resistance (2000-3000 HV)
- high corrosion resistance
- high wear, scratch, and abrasion resistance
- complete biocompatibility (no environmental impact process and no waste)
- resistance to solvents, acids, alkalis and cleaning agents
- suitability for food contact

COATING PROCESS:

The items to be coated are put in a deposition chamber where a vacuum condition is created (clean room and no polluting agents). The deposition process essentially consists of the evaporation, through a localized electrical discharge, of a metal whose ionized and condensed particles, due to the kinetic energy and the potential difference effect, are attracted by the piece to be coated. The condensation can take place in the presence of a process gas introduced in the chamber in a controller way.

DOUBLE

INOX 18/10

903 05 81 DFS 165 mm

Abert presenta Double, il nuovo utensile per... l'assaggio!**Perché è:**

- Innovativo: grazie alla sua forma metà cucchiaio e metà forchetta è l'unico strumento in grado di permettere assaggi di cibi liquidi e solidi.
- Irrinunciabile per gli chef, che possono finalmente sperimentare tutte le loro preparazioni con un solo oggetto nel taschino.
- Ingegnoso e pratico per assaporare i cibi in occasione di degustazioni, aperitivi o buffet.

Abert presents Double, the new tool for... tasting!**Because it is:**

- Innovative: thanks to its shape half spoon and half fork, it is an instrument able to allow tastes of liquid and solid foods.
- Essential for chefs, who can at last experiment all their preparations with just one object in their small pocket.
- Ingenious and practical in order to savour foods at tastings, happy hours or buffets..

URBAN
BUFFET

Caratteristiche tecniche

- A** Asportabilità del coperchio a 90° con estrema facilità.
- B** Coperchio leggero e facilmente maneggiabile.
- C** Blocco automatico dell'estrazione del coperchio in fase di lavoro (da 0° a 89°).
- D** Chiusura e apertura frenata del coperchio.
- E** Il coperchio si ferma, quando è lasciato, in qualsiasi posizione da 0° a 70°.
- F** Superati i 70° il coperchio si apre completamente lasciandolo andare.
- G** La cerniera è un meccanismo a molla, inalterabile nel tempo, non necessita di regolazione e di manutenzione in quanto non ha frizione.
- H** Tutti i meccanismi sono costruiti in pregiati materiali inossidabili, quindi resistenti alla corrosione, agli ambienti umidi e adatti al contatto con gli alimenti.
- I** Lo scaldavivande è progettato per raccogliere la condensa in modo da lasciare il piano di appoggio completamente asciutto.
- L** Può essere utilizzato sia con riscaldamento elettrico sia con fornelli a combustibile solido.

Technical characteristics

- A** Cover easily removable at 90°.
- B** Light and easy to handle cover.
- C** Automatic block of cover pull out when in operation (from 0° to 89°).
- D** Closing and opening slowed by cover.
- E** The cover stops, when released, in any position from 0° to 70°.
- F** Over 70° the cover opens fully when it is released.
- G** The hinge is a spring mechanism, inalterable in time, it does not need regulation and maintenance as it has no clutch.
- H** All the machineries are built in refined stainless materials, thus resistant to corrosion, humid environment and suitable for food contact.
- I** The chafing dish is designed to collect condensation, in order to keep the support base completely dry.
- L** Both electric warming and solid-fuel burners can be used.

Buffet System

**MIX
& PLAY**

Modern

Un'idea nuova ed originale nel concetto Buffet: il Mix&Play consente con un tocco di creatività e fantasia di presentare cibi, bevande, stuzzichini ecc. ispirandosi ai diversi momenti di consumo (dalla colazione all'aperitivo) e alle tipologie dei locali. Un'opera d'arte che coniuga modernità e funzionalità in un prodotto che non ha eguali.

A new and original idea for the buffet: Mix&Play Buffet allows to present food and beverages etc. at different times of the day and different kinds of place, with an incredible touch of creativity and fantasy. A work of art that matches modern day practicality in just one product.

The only one!

Modular

Le strutture in alluminio sono state pensate per soddisfare le differenti esigenze di spazio e di consumo del cliente. Sono l'esempio per eccellenza del concetto modulare consentendo la composizione di 5 differenti misure delle basi (2 quadrate e 3 rettangolari) per 3 differenti altezze. Con la creatività è possibile adattare il Mix&Play Buffet al proprio spazio e creare sempre nuove ed originali presentazioni.

The metal podium are created to satisfy the different needs of space and consumption. They are easy excellent example of modular concept allowing the composition of 5 different sizes of base (2 square and 3 rectangular) for 3 different heights. By being creative it is possible to adapt Mix&Play Buffet to any kind of space and always provide new and fantastic Buffet!

Elegant

E' composto da alzate modulari in alluminio pensate per essere utilizzate con piani in wengè, abs o porcellana con la possibilità di mixarli per creare sempre nuove soluzioni. La presentazione del buffet viene enfatizzata utilizzando anche i coordinati in porcellana e vetro per i piani in wengè o abs.

Metallo, porcellana e vetro: così diversi tra di loro ma in grado di esaltare alla perfezione l'eleganza del Buffet!

Mix&Play is composed of metal modular podium, ideal for being used with wooden and abs bases and pottery dishes. With the mix of them, it's possible to create a different presentation solutions. The buffet is exalted by using also the pottery and glass collection, thinking for wooden and abs bases. Metal, pottery and glass: so different but their meeting is able to celebrate the elegance of Buffet!

Small

Un'esposizione small ma grande nell'eleganza: la struttura Mix&Play Buffet si abbina con sintonia anche a superfici piccole per creare zone d'effetto. Una piccola idea per i bar/locali con superfici espositive ridotte che desiderano offrire ai propri clienti un servizio aperitivo di tendenza.

A display case that's small in size but large in elegance: Mix&Play Buffet also matches perfectly with small surfaces in order to create areas that are tasteful and refined. A nice little idea for bars/pubs with a small display areas that still want to supply cool aperitifs to their clients.

V863242S01 Silver
V863242S03 Black

Medium

Esiste sempre una via di mezzo! E il Mix&Play è la scelta giusta perché propone soluzioni anche di medie grandezze per presentare colazioni e mini buffet con gusto e vivacità.

There is always something in between! Mix&Play is the right choice because it also provides great solutions for medium sized structures to present breakfast and mini buffets with taste and vivacity.

Mix & Play Set, Medium (ABS bases)

V863242M01 Silver
V863242M03 Black

Large

Nata per attirare intorno a sé i clienti: un'esposizione grande sia nel formato che nello stile. Un'idea singolare e geniale per presentare il servizio buffet in ogni momento della giornata dal pranzo alla cena. Le differenti strutture propongono giochi di materiali e di altezze adattabili a differenti stili di locali: dal ristorante di tendenza a quello di lusso per creare un'area buffet che invogli.

Created to attract clients to the display: it is large both in shape and style. A unique and brilliant idea for buffet services at different times of the day (from lunch to dinner). Several structures are available, using different materials and heights that are fully adaptable to places of different styles: from trendy eating places to luxury restaurants, creating an attractive buffet area.

A vintage-style metal pepper mill is positioned on the left side of the frame. The mill has a polished, reflective metal body with a circular handle at the top. The background is a rustic, weathered wooden surface. In the lower right quadrant, a cluster of dark brown peppercorns is scattered, with several individual peppercorns scattered further out on the wood.

IN & OUT

Plastica / plastic
Cod. PV8..

In & Out è la nuova linea di posate in nylon vetrificato versatile, informale e colorata che Abert propone per essere utilizzata con creatività, in casa come in giardino, al ristorante o a bordo piscina, al bar o in barca. Date sfogo alla fantasia con le posate In & Out e usatele quando e dove volete e con serenità: sono solide e resistenti, interamente prodotte in Italia, riutilizzabili e lavabili in lavastoviglie.

In & Out is the new glossy-glazed-nylon cutlery, versatile, informal and lively that Abert offers to be used with creativity at home and in the garden, at the restaurant or at the pool side, at the bar or in the boat. Let your imagination run wild with In & Out cutlery and use it when and where you wish and don't be afraid: it is robust and resistant, entirely made in Italy, reusable and washable in dishwasher.

PINGUINO

ABS, gomma antiscivolo - plain ABS, non-slip rubber
AVARI093 32,5x46 cm H2 cm

Pinguino è il nuovo vassoio antiscivolo di Abert. ABS e gomma fusi in un unico corpo garantiscono qualità e resistenza. Una linea essenziale ed ergonomica, dall'eleganza moderna, che ben si presta al servizio al tavolo, agli eventi con catering, al self service ed al servizio in camera. Un vassoio multifunzione facile e robusto, che garantisce l'aderenza di ogni oggetto fino ad un'inclinazione di 45%.

Pinguino is Abert new non-slip tray. ABS and rubber melt in one body guarantee quality and resistance. A simple and minimal line of modern elegance that can suit well with table service, events with catering, self service and room service. A multifunction tray, easy and robust, that guarantees the adherence of every object up to 45 degree incline.
