## WOODGRAIN COLLECTION

## GENERAL INFORMATION

ABET's Woodgrain Collection comprises a range of reproduction wood effect high pressure laminates specifically chosen for the UK market from the full collection available from ABET LAMINATI.

The various species are offered in a range of complementary textures to give the widest aesthetic choice to designers. This range forms part of the wider UK stock profile and sheets are available ex-stock in 0.8mm postforming grade (HGP) in a sheet size of 3050 x 1300mm.

The Collection is manufactured in the most modern and largest HPL factory in Europe and conforms to all the requirements of BS EN 438:2005.

The decors are available in both standard and special finishes and are suitable for use on a wide range of vertical and horizontal applications (Please note – Lucida is recommended for vertical use only).

## CLEANING AND MAINTENANCE

The Woodgrain Collection will give years of excellent service provided a few simple rules are followed: Light dirt or stains can be removed easily with warm water and mild detergent. Stubborn marks should be removed using a non-abrasive cream cleaner or mild domestic bleach. Harsh abrasives or scouring powders should be avoided. Grease marks can be removed with a proprietary paint and graffiti remover. Hair dyes, bleaches, caustic alkalis and strong mineral acids should be wiped off within a short period.

We strongly recommend that all ABET LAMINATI HPL products are stored, conditioned and fabricated in accordance with our own and BLFA guidelines. More detailed technical information brochures are available from our office and/or your local distributor.

## STYLISH AND PRACTICAL

ABET LAMINATI manufactures the world's most innovative laminates created by the best Italian and international designers and is Europe's largest producer of HPL products. Our UK and Ireland office is based in London's Docklands and supplies over 1000 laminate designs in a variety of finishes, sheet sizes and thicknesses — arguably the most comprehensive collection available anywhere.

Our UK and Ireland network of technical sales representatives will provide advice on the use of laminates for every application: the conventional, the unusual, the high performance and the purely decorative. Whatever your project, we can help you to find the right laminate solution.

## WOODGRAINS – STANDARD FINISHES

358 • Creative Walnut • Morbida
