Installs in
7 MINUTES
With the Push of a
BUTTON!

**THIS CHANGES
EVERYTHING**

20-foot Island
Packs Into Just
TWO CASES
That Can Convert Into a
Stylish Counter

Skyline[®]

Easier Than You Ever Imagined!

Ease, packing size and ultra-quick installation make WindScape™ Exhibit System a perfect solution for your sales force or remote locations as part of a fleet program.

Realize a Quicker Return On Investment!

- Reduce shipping costs – tabletop and 10' (3m) backwalls travel with you
- Significantly lower drayage and storage costs
- Eliminate time waiting for cartons and cases to return to your booth space
- Save time and money on I&D

An entire tabletop unit – with inflator, battery, hose and 6' (2m) table throw – fits into a backpack and weighs less than 13 lbs. (5.9 kg).

Customize Your Display Look and Function

- Fabric graphics come pre-installed on the frame and are easy to change
- Lighting helps you get noticed
- Changeable graphic overlays help showcase your messages
- Tablet mounting package allows for use of iPad®
- Case converts to a functional table that's customizable

Single Push Installation!

With a simple hose to valve connection, Skyline's inflator runs on electricity or rechargeable battery pack and shuts off automatically when proper inflation has been reached. A single battery charge will inflate a 10' (3m) display up to 4 times.

Note: Use Skyline inflator only

Flexibility! Reconfigure components to fit varying booth spaces!

Lower Operating Costs for Larger Exhibits

Lighter Weight Has Many Benefits:

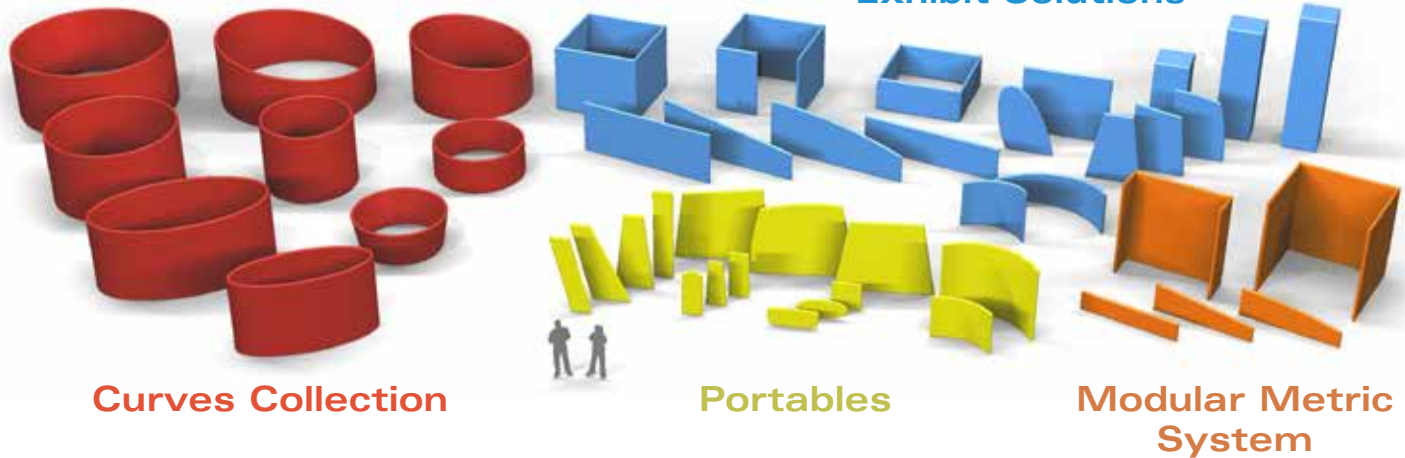

- Quicker, easier installation reduces I&D time and costs
- Reduces the amount of support structure required
- Superior spanning capabilities also reduce support hardware needed
- Many shapes can be mounted to exhibit towers to avoid ceiling rigging
- Smaller, lighter packaging saves on shipping, storage and drayage
- Case table options enable you to keep your cases in your booth space

Hanging frames and vertical hardware pack into 3 hard cases that convert into functional counters.

Revolutionary New Exhibit System

Exhibit Solutions

Curves Collection

Portables

Modular Metric System

Multiple Shapes Stand Alone or Integrate with Existing Skyline Systems

Whether it's a do-it-yourself 10' inline or a metric option; a quick and easy I&D to a large exhibit set-up by a hired team, The Skyline WindScape™ offers durable solutions, high definition, wrinkle-free graphics and even unique shapes not possible with traditional trade show products.

3 Easy Steps to Installation:

1) Unpack

Open case and remove frame with pre-installed graphic and inflator bag.

2) Inflate

Remove hose and cord from inflator bag. Connect hose to inflator and to frame. Plug inflator into battery pack or electrical outlet. Press button to start inflation.

3) Accessorize

Once fully inflated, the inflator shuts off automatically. Simply install any feet, lights or graphic overlays and you're ready to exhibit!
