

Job Title: CNC Machine Programmer
Position: Full-Time/Permanent
Salary: TBA

REQUIRED SKILLS

Good Experience with Vertical CNC Machines and Heidenhain Controls
Ability to understand work sheets and drawings

*Previous experience within a manufacturing / engineering environment would be advantageous.

JOB DESCRIPTION

The successful candidate will on a daily basis be required to work alongside our design team and have the ability to work from electronic models, drawings and use the own initiative to solve problems.

The role will involve working within a small team environment, so good communication skills at all levels are essential.

This is a great opportunity for the successful candidate who wants to be part of a dynamic team producing cutting edge tooling for the aerospace and power generation industry.
