HEALTH & SAFETY

Introducing: THE WILKINS SAFETY GROUP

The Wilkins Safety Group takes the worry of dealing with Health & Safety regulations off your hands, leaving you free to concentrate on running your business the way you want to.

A corner stone of our business is the provision of ongoing Health & Safety support to our customers who cannot justify the expense of employing a full time Health & Safety Manager

Our ethos at THE WILKINS SAFETY GROUP is to be of assistance and not a hindrance, making Health & Safety regulations more complicated than it need be.

What you can expect from our Health and Safety Consultancy Services

- **Advice** - It's like having your own Health and Safety Manager at a fraction of the cost of employing one full time.
- **We do the work for you** - we actually implement the changes needed allowing you to get on with running your business.
- **Documentation** - Tailored Health and Safety Policies, Risk Assessments, Safe Systems of Work and more.
- **Representation** - The peace of mind of having a Health and Safety expert to represent you in

What are the benefits of Out-Sourcing your Health and Safety Management?

Protection - Defend yourself against Injury Claims resulting from accidents at work.

Growth - Increase your business by tendering directly for contracts instead of taking less as a subcontractor.

Savings - We could give you the ammunition to negotiate better commercial insurance fees.
