## Who is it for?

The unique working synergy of both the Green Tea Mask and the Green Tea Cream activate a potent action to effectively remove free radicals that age the skin. This treatment also hydrates and noticeably diminishes fine lines & wrinkles. This results in a more youthful complexion, and a much improved, refined skin whilst preventing future DNA & UV skin damage.

| PRODUCT  | INGREDIENTS   | BENEFITS  |
|--|---|---|
| Kiwi Skin Perfect<br>Dermatone Tonic<br>Green Tea Mask<br>Green tea Skin Cream | Kiwi Extract<br>Aloe Vera & mallow<br>Green Tea & Hyaluronic Acid<br>Green Tea & Bifido Bacteria Lysate | Cleansing & Exfoliation<br>Harmonising & Fortifying<br>Removes Free Radicals<br>Prevents UV/DNA skin damage |

**1.** Cleanse & exfoliate with Kiwi Skin Perfect. With slightly damp fingertips apply the Kiwi Skin Perfect using circular and upwards movements. Ensure the entire face and neck are covered. Remove with dampened, warm mitts.

**2.** Apply the Dermatone Tonic, using damp cotton wool pads. The skin will now feel refreshed and toned, ready for applying the Green Tea Mask.

**3.** Apply the Green Tea Mask with a mask brush to the face and neck area, avoiding the eyes and lips. Leave on the skin for 15 minutes. Remove with warm dampened mitts ensuring all traces of the mask have been removed.

**4.** Apply the Dermatone Tonic, using damp cotton wool pads. The skin will now feel refreshed and toned.

**5.** Finally complete and maximise the effectiveness of the facial by applying Green Tea Skin Cream.

Green Tea cream & mask contains one of nature's most powerful antioxidants which provide actions to remove and protect against impurities (free radicals) that attack the skin on a daily basis. Free radicals block and dehydrate the skin therefore creating fine lines and wrinkles and preventing it from appearing fresh and healthy. The skin needs to regenerate and produce fresh skin cells if it is to feel taut and firm.

These particular Green Tea formulations contain powerful hygroscopic properties which re hydrates the skin. Firstly having removed the free radicals they will then act upon the epidermis boosting its cell replenishment process. Finally, this Green Tea Cream will protect against any future attacks from free radicals, therefore providing and maintaining a much improved healthier skin. Fine lines will start to diminish and the skin will feel & appear much firmer and youthful.

\* The Matcha Green Tea facial can also be used very beneficially for those clients who have problems with acne and post acne scarring.

\* Not Acne Rosacea

## Who is it for?

Bofusion is a unique solution for the treatment of mature and stressed skin. Its exceptional and dedicated formulae contains highly effective Peptides that soften the appearance of lines and wrinkles by relaxing the sub-dermal facial muscles, which are responsible for creating and sustaining the lines that appear on the face and neck, similar to a Botox action.

| PRODUCT                     | INGREDIENTS               | BENEFITS                      |
