## BrightStars: Rhode Island's Quality Rating and Improvement System for Early Care, Education and School-age Programs

The latest science tells us that the early years of life matter because early experiences affect the architecture of children's maturing brains. Like the construction of a house, brains are built from the bottom up, with early experiences setting the foundation for the rest of development. That is why high quality early care, education and school-age programs are so important for Rhode Island.

**Through BrightStars, Rhode Island is creating a sustainable infrastructure of diverse and high quality early care, education and school-age programs using research-based practices that promote positive outcomes for children and families.**

BrightStars works to assess, improve, and communicate the level of quality in early care, education and school-age care settings. BrightStars meets programs and providers where they are, using a strengths-based approach that guides them to decisions about early care, education and school-age care. A BrightStars rating is an objective tool to support program quality improvement and assist families in selecting early care, education and school-age programs.

Quality rating and improvement systems exist in many states across the country to systematically improve program quality and support the healthy growth and development of our youngest children. Quality rating and improvement systems measure program quality within a framework of research-based standards.

State regulations establish the foundation for operating early care, education and school-age programs. These regulations specify the minimum standards that must be met to operate legally and are the first step in a quality rating and improvement system. Higher levels in quality rating systems recognize programs for exceeding basic regulatory requirements and implementing practices that research shows are best for children. BrightStars is part of the state's aligned continuum of program standards, with linkages to state licensing/regulation and RI Department of Education Comprehensive Early Childhood Education Program Approval.

BrightStars is a 5-level quality rating and improvement system. In order to participate in BrightStars, programs must have a child care license from the Rhode Island Department of Children, Youth & Families or program approval from the Rhode Island Department of Education. Programs that achieve higher levels of BrightStars recognition have demonstrated that they are implementing important research-based practices known to promote child development and learning. Each incremental BrightStars rating demonstrates an important step toward best practice.

BrightStars assesses programs in six quality domains:

- Health, Safety & Nutrition
- Enrollment & Staffing
- Staff Qualifications & Ongoing Professional Development
- Administration
- Early Learning & Development
- Family Engagement

Since 2005, BrightStars has received invaluable guidance and support from an Advisory Committee that includes representatives from all sectors of the early learning and child care field, state department leaders, early learning programs, and key local experts and advocates.

BrightStars is a public-private partnership managed by the Rhode Island Association for the Education of Young Children. Key partners include the United Way of Rhode Island, Rhode Island Department of Human Services, Rhode Island Department of Children, Youth & Families, Rhode Island Department of Education, Rhode Island Department of Health, Rhode Island KIDS COUNT, and the hundreds of BrightStars-participating early care, education and school-age programs across Rhode Island.

DOMAINS, STANDARDS AND CRITERIA

The following is a snapshot of the BrightStars Child Care Center and Preschool Quality Framework. Standards and criteria are listed under each of the respective six BrightStars quality domains. Under "Level 1", "Level 2", etc., a check mark (✓) indicates that BrightStars will assess criteria at that level. For each criteria, an increase in check marks indicates an increase or difference in what is required to achieve a higher star rating.

BRIGHTSTARS CHILD CARE CENTER AND PRESCHOOL QUALITY FRAMEWORK

# DOMAINS AND STANDARDS AT A GLANCE

# HOW TO USE THIS DOCUMENT

This framework is designed for use by child care centers and preschools serving children ages birth through kindergarten entry. It describes the domains, standards, and criteria BrightStars uses to assign programs a star rating.

BrightStars Standard Name and icon

## Standard 1: LEARNING ENVIRONMENT

BrightStars Quality Domain

Domain 1: Health, Safety & Nutrition

Definition of Standard

Daily activities and interactions show that the program is providing a **safe, healthy, and stimulating environment**. The program provides **indoor and outdoor space** to support varied and enriching experiences for children. Daily interactions demonstrate that **staff respect, care for, and enjoy working with children**. The program supports **the inclusion of children with disabilities and developmental delays**, responds to the **cultural and linguistic diversity** of the population it serves, and promotes the acceptance of diversity among staff, families, and children.

# Standard 2: MINIMUM STAFF-CHILD RATIO

The program has enough staff members at all times to supervise the children and to support early learning and development. This standard reiterates what is expected of programs through compliance with state regulation.

<sup>1</sup> Unless federal or state law requires more stringent ratios or when determined to be appropriate considering student behavioral, health, or educational needs.

<sup>2</sup> Programs with mixed-age groups must meet the staff-child ratio requirement for the youngest child in the group.

## Standard 3: MAXIMUM GROUP SIZE

Maximum group size is determined by the number of children cared for by a caregiver or group of caregivers in a classroom or designated area. Measuring group size ensures that **children are cared for in a small group, separate from other groups of children** in order to promote the development of stable, positive relationships and to prevent the spread of disease. This standard reiterates what is expected of programs through state regulation.

# Standard 4: TEACHER QUALIFICATIONS

Each group of children shall have a teacher who works under the supervision and guidance of the Education Coordinator<sup>1</sup> to care for the children and implement the classroom curriculum. The teacher has the **formal education and professional preparation** to work with children in their assigned age group.

<sup>1</sup> Education Coordinator is a term specific to community-based programs. In the public schools, individuals with different titles may support the early childhood program.

# Standard 5: PROGRAM LEADERSHIP

The **Program Administrator**<sup>1</sup> is responsible for overall operations and compliance with licensing regulations. The **Education Coordinator**<sup>1</sup> is responsible for the development and implementation of the early learning and development program, including classroom curriculum, organization of children’s groups, and staff performance. These roles may be stand-alone positions or done by the same person.

Standard 6:

# CONTINUOUS QUALITY IMPROVEMENT

The program **conducts a comprehensive self-assessment**, at least once a year, to assess compliance with regulations and standards and to determine its effectiveness in meeting the needs of the children and families it serves. The program then uses this information to **create program goals** to continually improve quality and documents progress towards achieving these goals.

# Standard 7: CURRICULUM

The program **uses a curriculum or curriculum framework**, aligned to the RI Early Learning and Development Standards (RIELDS), for all age groups served, including infants and toddlers. Teaching staff have **emotional connections** with children and respond appropriately to individual early learning and development needs. Classroom schedules and routines **maximize time spent in early learning and development** activities. The program provides many **opportunities for children to learn and practice skills** in all domains of the RI Early Learning and Development Standards.

# GLOSSARY

<b>Basic Education Program (BEP)</b>	The Basic Education Program (BEP) is the overarching set of regulations for the Rhode Island public education system. Together with other federal and state laws and regulations, the BEP outlines the rights of every student in the Rhode Island public education system. It sets basic standards to help ensure that high quality education is available to all public school students, regardless of where they live or go to school. <a href="http://www.ride.ri.gov">www.ride.ri.gov</a>	<b>Child Outreach</b>	Child Outreach is a universal developmental screening system designed to screen all children, ages three to five years old. Screening serves as a first step in the identification of children who might have developmental delays or disabilities and who could benefit from intervention. Child Outreach also serves as a resource to families, providing information about general development, the development of their child, opportunities for involvement in their child's development and information regarding referrals to agencies and community programs. <a href="http://www.ride.ri.gov">www.ride.ri.gov</a> .
<b>BrightStars Criteria</b>	BrightStars criteria are specific, measurable benchmarks within a standard that programs must meet in order to receive a BrightStars rating. For example, "Compliance with DCYF Licensing Regulations" and "Family-Teacher Conference" are criteria.	<b>CLASS</b>	<i>The Classroom Assessment Scoring System.</i> The CLASS is an observational instrument. The tool assesses teacher-student interaction in three domains: Emotional Support, Classroom Interaction, and Instruction and Support. <a href="http://www.teachstone.com">www.teachstone.com</a>
<b>BrightStars Domain</b>	BrightStars standards are organized into 6 domains, or general areas of program quality. The 6 BrightStars domains are: 1) Health, Safety & Nutrition, 2) Enrollment & Staffing, 3) Staff Qualifications & Ongoing Professional Development, 4) Administration, 5) Early Learning & Development, and 6) Family Engagement.	<b>Early Intervention</b>	RI's Early Intervention Program promotes the growth and development of infants and toddlers who have a developmental disability or delay in one or more areas. Developmental disabilities or delays can affect a child's speech, physical ability, or social skills. Children referred to the Early Intervention Program receive a comprehensive developmental evaluation to determine if they are eligible. <a href="http://www.eohhs.ri.gov">www.eohhs.ri.gov</a>
<b>BrightStars Standard</b>	BrightStars program standards set specific goals for program quality. For example, "Teacher Qualifications" is a program standard.	<b>Early Childhood Education/ Related Field (ECE/Related)</b>	Specialized coursework in Early Childhood Education or a related field is required. For a complete definition, see the BrightStars application materials or visit <a href="http://www.BrightStars.org">www.BrightStars.org</a>
<b>Child Development Associate (CDA)</b>	The CDA credential is a nationally-awarded certificate administered by the Council for Professional Recognition. A CDA can be obtained in infant/toddler, preschool, family child care, or home visiting. In order to receive a CDA credential, an individual must have 480 hours of experience working with children, 120 hours of formal training, and complete the CDA exam. <a href="http://www.cdacouncil.org">www.cdacouncil.org</a>		

# GLOSSARY (CONTINUED)

**ECERS-R, ITERS-R**

*The Early Childhood Environment Rating Scale – Revised. The Infant-Toddler Environment Rating Scale – Revised.* The ECERS-R and ITERS-R assess process quality in infant, toddler, and preschool classrooms. Process quality is what children directly experience in their program that has a direct effect on their development, including the various interactions that go on in a classroom between staff and children and among the children themselves, and the interactions children have with the many materials and activities in the environment, as well as those features, such as space, schedule and materials that support these interactions. [ersi.info](http://ersi.info)

**Head Start Performance Standards**

The Head Start Performance Standards are designed to ensure that the Head Start goals and objectives are implemented successfully, that the Head Start philosophy continues to thrive, and that all grantee and delegate agencies maintain the highest possible quality in the provision of Head Start services. [www.acf.hhs.gov](http://www.acf.hhs.gov)

**Individualized Education Program (IEP)**

For students with disabilities, this means that the student must be provided with a free, appropriate, public education designed to meet his or her needs and to provide the student with access and opportunity to attain those high standards. The foundation of the program for the student with a disability is the Individualized Education Program (IEP) developed by the IEP team. [www.ride.ri.gov](http://www.ride.ri.gov)

**Individualized Family Service Plan (IFSP)**

After a child is determined eligible for Early Intervention, the Early Intervention staff and the family design a plan called the Individualized Family Service Plan (IFSP). [www.eohhs.ri.gov](http://www.eohhs.ri.gov)

**National Association for the Education of Young Children (NAEYC)**

NAEYC is a professional association focused on the quality of educational and developmental services for all children from birth through age 8. NAEYC supports a national, voluntary accreditation system for early childhood education programs. [www.naeyc.org](http://www.naeyc.org)

**RI Department of Children, Youth and Families (DCYF)**

DCYF licenses child care centers, family child care homes, and school-age programs to ensure the health, safety and well-being of children while in care outside of their home. [www.dcyf.ri.gov](http://www.dcyf.ri.gov)

**RI Early Learning and Development Standards**

The RI Early Learning and Development Standards articulate shared expectations for what young children should know and be able to do. They provide a common language for measuring progress toward achieving specific learning goals. [www.rields.com](http://www.rields.com)

**RI Workforce Knowledge and Competencies**

The Rhode Island Workforce Knowledge and Competencies for Early Childhood Educators articulate the essential skills and knowledge that educators who work with young children in a classroom setting need to know, understand, and be able to do to promote young children’s healthy development and learning.
