## ENGLISH

### CAUTION!

Inappropriate installation may cause injury to persons and damage to the lamp.

### WARNING:

Deviation from the instructions may result in electric shock or an electrical hazard.

If the external flexible cable or cord of this luminaire is damaged, it must only be replaced by the manufacturer or a service agent or similar qualified person, in order to avoid a hazard.

The luminaire is provided with an open tail cable. The connection to the branch circuit must be equipped with a proper strain relief\* (p.4).

If you notice that any part of this luminaire is damaged, please contact Valoya.

### EXPLANATIONS:

 p.4 - Content of the package:

a) Luminaire b) Power supply unit c) Hanging device

1. Hanging options
2. Grounded power connection only
3. Minimum distance from illuminated object
4. Indoor use only, Operating temperature
5. Do not modify or loosen any part of this luminaire.

## DEUTSCH

### VORSICHT!

Unsachgemäße Installation kann zu Personen- und Sachschäden führen.

### ACHTUNG:

Abweichungen von den Anweisungen können zu Stromschlag oder Brand führen.

Um Gefahren zu vermeiden, darf bei Beschädigung des externen Leuchtenkabels dieses ausschließlich vom Hersteller bzw. seines Kundendienstes oder ähnlichem Fachpersonal ersetzt werden.

Die Leuchte wird mit offenem Kabelende ausgeliefert und der Netzanschluss muss mit angemessener Zugentlastung erfolgen\* (p.4).

Bei Beschädigung eines Leuchtenteils kontaktieren Sie bitte Valoya.

### ERKLÄRUNGEN:

 p.4 - Paketinhalt:

a) Leuchte b) Netzteil c) Aufhängevorrichtung

1. Aufhängeoptionen
2. Ausschließlich geerdeter Stromanschluss
3. Mindestabstand vom beleuchteten Objekt
4. Ausschließliche Verwendung im Innenbereich, Betriebstemperatur
5. In keiner Weise Teile der Leuchte ändern oder lösen.

## NEDERLANDS

### LET OP!

Onjuiste installatie kan schade aan personen of de lamp veroorzaken.

### WAARSCHUWING:

Onjuiste installatie kan leiden tot elektrische schok of gevaar.

Als een externe flexibele kabel of het snoer van deze lamp is beschadigd, wordt deze uitsluitend vervangen door de fabrikant of zijn service agent of een ander bevoegd persoon om gevaar te voorkomen.

Als de lamp wordt geleverd met open kabels, zonder stekker, dan moet de aansluiting op vertakte circuit uitgerust zijn met de juiste trekontlasting\* (p.4).

Als u merkt dat een deel van deze lamp is beschadigd, neem dan contact op met Valoya.

### UITLEG:

 p.4 - Inhoud van het pakket:

a) Lamp b) Krachtbron c) Ophangapparaat

1. Ophangopties
2. Alleen geaarde aansluiting
3. Minimale afstand tot het verlichte object
4. Alleen binnenshuis gebruik, Bedrijfstemperatuur
5. Wijzig of verlies geen onderdeel van de lamp.

## PORTUGUÊS

### ATENÇÃO!

A instalação inapropriada pode causar danos na luminária e ferimentos nas pessoas.

### AVISO:

Desvio das instruções pode causar choque elétrico ou falha.

Se o cabo externo ou o cabo da luminária estiver danificado, este deverá ser substituído exclusivamente pelo fabricante, o seu agente autorizado ou por alguém qualificado para o fazer, a fim de evitar um perigo.

A luminária é fornecida com cabos sem tomada. A conexão ao circuito derivado deve equipar com alívio de tensão adequado\* (p.4).

Se notar alguma parte danificada, entre em contacto com a Valoya.

### EXPLICAÇÕES:

 p.4 - Conteúdo da embalagem:

a) Luminária b) Transformador c) Dispositivo de suspensão

1. Opções de suspensão.
2. Apenas conexão eléctrica a terra
3. Distância mínima ao objecto iluminado
4. Somente para uso interno, Temperatura de funcionamento
5. Não modifique ou solte qualquer parte desta luminária.

## ESPAÑOL

### PELIGRO!

Una instalación inadecuada puede provocar lesiones o dañar la lámpara.

### ATENCIÓN:

No seguir atentamente las instrucciones es peligroso y puede causar una descarga eléctrica.

Si la manguera flexible exterior o el cable de esta luminaria están dañados, deben ser reemplazados exclusivamente por el fabricante o su representante de servicio técnico o por una persona que tenga una cualificación similar con el fin de evitar posibles peligros.

La luminaria se suministra con un cable de puntas libres. La conexión al circuito de fase debe contar con una sujeción protectora adecuada\* (p.4).

Si observa daños en cualquier parte de esta luminaria, le rogamos que contacte con Valoya.

### EXPLICACIONES:

 p.4 - Contenido del paquete:

a) Luminaria b) Unidad de alimentación c) Dispositivo para colgar

1. Opciones para colgar
2. Sólo conexión a red con toma de tierra
3. Distancia mínima con respecto al objeto iluminado
4. Sólo para uso en interiores, Temperatura de funcionamiento
5. No modifique ni pierda ninguna parte de esta luminaria.

## VLAAMS

### LET OP!

Verkeerde aansluiting kan schade veroorzaken aan de lamp of leiden tot lichaamelijk letsel aan personen.

### WAARSCHUWING:

Afwijkingen van de instructies kunnen leiden tot kans op elektrische schokken of gevaarlijke situaties.

Als een externe flexibele kabel of het snoer van deze lamp is beschadigd, dient deze exclusief vervangen te worden door de fabrikant of zijn service-agent of gelijkwaardig gekwalificeerd persoon om gevaar te voorkomen.

Als de lamp wordt geleverd zonder stekkers, dan dient de aansluiting op het vertakte circuit voorzien te worden van een correcte trekontlasting\* (p.4).

Als u merkt dat een deel van deze lamp is beschadigd, neem dan contact op met Valoya.

### UITLEG:

 p.4 - Inhoud van het pakket:

a) Lamp b) Voeding c) Ophanghulpmiddel

1. Ophangmogelijkheden
2. Alleen geaarde aansluitingen
3. Minimale afstand tot het verlichte object
4. Alleen gebruik binnenshuis, Bedrijfstemperatuur
5. Geen enkel onderdeel van deze lamp wijzigen of losmaken.

**FRANÇAIS****ATTENTION!**

Une mauvaise installation peut être source de blessures corporelles et endommager les lampes.

**AVERTISSEMENT:**

Le non-respect des instructions peut être source d'électrocution et de danger.

Si le câble flexible extérieur ou le cordon de ce luminaire est endommagé, il doit être exclusivement remplacé par le fabricant, par un de ses agents de service ou par un technicien qualifié afin d'éviter tout danger.

Le luminaire est fourni avec des câbles de transmission ouverts. Le raccordement au circuit de dérivation doit être équipé d'une décharge de traction appropriée\* (p.4).

Si vous remarquez qu'une quelconque partie de ce luminaire est endommagée, merci de contacter Valoya.

**EXPLICATIONS:**

p.4 - Contenu du paquet:

a) Luminaire b) Bloc d'alimentation c) Dispositif de suspension

1. Options d'accrochage
2. Prise alimentation sur secteur uniquement
3. Minimum distance de l'objet lumineux
4. Usage intérieur seulement, Température de fonctionnement
5. Ne pas modifier ou desserrer une quelconque partie de ce luminaire.

**РУССКИЙ****ОСТОРОЖНО!**

Ненадлежащий монтаж может привести к серьезным травмам и повреждению лампы.

**ВНИМАНИЕ!**

Несоблюдение инструкций может привести к электрическому удару или поражению электрическим током.

Если внешний гибкий кабель или шнур светильника поврежден, во избежание возникновения опасности его замена должна выполняться только изготовителем, специалистом по обслуживанию или аналогичным квалифицированным персоналом.

Светильник снабжен открытым присоединительным проводом. Подключение к электрической сети должно быть оборудовано соответствующим компенсатором натяжения\* (стр. 4).

Если вы заметили, что какая-либо часть светильника повреждена, обратитесь в компанию Valoya.

**ПОЯСНЕНИЯ:**

стр. 4 — В комплект входит:

a) Светильник b) Блок питания c) Подвес

1. Варианты подвеса
2. Только заземленное подключение к сети Класс защиты светильника
3. Минимальное расстояние от освещаемого объекта
4. Только для использования в помещении, рабочая температура
5. Не модифицируйте этот светильник и не соединяйте никакие из его частей

**SVENSKA****AKTA!**

Felaktig installation kan leda till skador på personer och lampan.

**VARNING!**

Om anvisningarna inte följs kan det leda till elektrisk chock eller fara

Om armaturens kabel eller sladd skadas får den av säkerhetsskäl endast bytas ut av tillverkaren, dennes serviceombud eller liknande behörig person.

Armaturen levereras med en kabel utan stickkontakt. Anslutningen till sektionen måste förses med lämplig dragavlastare\* (p.4).

Kontakta Valoya om någon del av armaturen är skadad.

**FÖRKLARINGAR:**

p.4 - Paketet innehåller:

a) Armatur b) Kraftenhet c) Upphängningsanordning

1. Upphängningsalternativ
2. Endast jordad elanslutning
3. Minsta avstånd till belyst föremål
4. Endast för inomhus bruk, Arbetstemperatur
5. Ändra eller lösgör inte någon del av armaturen.

**SUOMI****HUOMIO!**

Valaisimen huolimaton asennus voi johtaa henkilön loukaantumiseen ja valaisimen vioittumiseen.

**VAROITUS:**

Ohjeista poikkeaminen voi aiheuttaa sähköiskun vaaran.

Valaisimessa vaurioituneen ulkoisen kaapelin voi vaihtaa vain valmistaja tai hänen valtuuttama korjaaja.

Valaisin on toimitettu avoimella virtakaapelilla. Kaapeli tulee varustaa sopivalla vedonpoistolla\* (s.4).

Jos havaitset jonkin osan valaisimesta olevan vioittunut, ota yhteyttä Valoyaan.

**SELITYKSET:**

s.4 - Pakkauksen sisältö:

a) Valaisin b) Virtalähde c) Ripustuslaitteet

1. Asennusvaihtoehdot
2. Vain maadoitettu sähkökytkentä
3. Pienin asennusetaisyyys valaistavasta kohteesta
4. Ainoastaan sisäkäytöön, Käyttölämpötila
5. Älä muuta tai irrota osia valaisimesta.

**日本語****注意!**

不適切な取り付けは人の傷害、およびランプの損傷の原因となる場合があります。

**警告:**

指示に従わないと、感電や電気的障害の原因となる場合があります。

本照明器具の外部フレキシブルケーブルまたはコードが損傷した場合、危険を避けるために、メーカーまたはサービス代理店または同様の有資格者のみによって交換されなければなりません。

照明器具には、オーブンティールケーブルが付いています。分岐回路への接続には適切な張力緩和\* (p.4)が施される必要があります。

本照明器具の部品に損傷があることに気が付いた場合は、Valoyaにご連絡ください。

**説明:**

p.4 - パッケージの内容:

a) 照明器具 b) 電源ユニット c) 吊り下げ装置

1. 吊り下げオプション
2. 接地した電源接続のみ。照明器具保護クラス。
3. 照明された物体からの最小距離
4. 室内使用のみ、動作温度
5. 本照明器具のいかなる部分も変更したり緩めたりしないでください。

**ITALIANO****ATTENZIONE!**

L'installazione non corretta può causare lesioni alle persone e danni alla lampada.

**AVVERTENZA:**

La mancata osservanza delle istruzioni può causare elettruccione o pericoli elettrici.

Se il cavo flessibile esterno di questo apparecchio di illuminazione è danneggiato, deve essere sostituito solo dal produttore, da un agente di assistenza o da altra persona qualificata al fine di evitare pericoli.

L'apparecchio viene fornito con un cavo con estremità libera. Il collegamento con il circuito derivato deve essere dotato di un serracavo\* appropriato (pag. 4).

Se si notano danni a parti dell'apparecchio, contattate.

**SPIEGAZIONI:**

pag. 4 - Contenuto della confezione:

a) Apparecchio di illuminazione b) Unità di alimentazione c) Dispositivo di sospensione

1. Opzioni di sospensione
2. Solo collegamento con messa a terra. Classe di protezione dell'apparecchio di illuminazione
3. Distanza minima dall'oggetto illuminato
4. Solo per uso in interni. Temperatura operativa
5. Non modificare o allentare alcuna parte dell'apparecchio di illuminazione.

Please inspect the goods upon receipt to ensure that your delivery is complete and that no goods are defective. If you detect any damage to the packaging, please notify the carrier about the damage immediately. Ask the carrier to write down a statement that "the delivery was not delivered in good condition".

If the packaging shows no damage but the goods inside are defective; bend or show other signs of damage, contact us. In both cases take pictures to back up your claim and contact us as soon as possible by phone (+358 (0)10 2350 300) or e-mail (sales@valoya.com). Thank you!

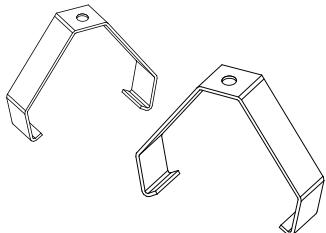

#### Class I fixed luminaire acc. to IEC/EN 60598-1

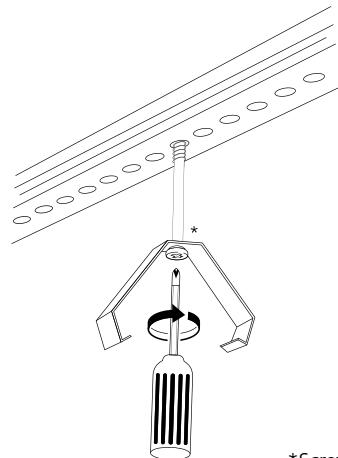

A fixed luminaire is a luminaire which cannot easily be moved from one place to another, either because the fixing is such that the luminaire can only be removed with the aid of a tool, or because it is intended for use out of arms reach.

**B100 / B200** (non-dimmable)  
**B100dim / B200dim** (dimmable)

For a 16A C-Curve Multi Circuit Breaker (MCB) we recommend using a maximum of 6 power supply units (PSUs).

1 MCB (for example MCB S200 series manufactured by ABB)

	B100dim	B200dim
Dimming	1-10VDC or PWM	(1-10V) or PWM
PSU EU (Non-Dimmable)	Line input 220-240VAC, 50/60Hz, input current 0,69A@240VAC	
PSU EU (Dimmable)	Line input 100-240VAC, 277VAC, 50/60Hz, input current 0,8A@230VAC	Line input 100-240VAC, 277VAC, 50/60Hz, input current 0,8A@230VAC
PSU US (Dimmable and Non-Dimmable)	Line input 120-277 VAC, 50/60Hz, input current 1,4A@120V, 0,6@277VAC	
AC plug		No, open end (plug optionally available in EU)

**B200M** (non-dimmable)

For a 16A C-Curve Multi Circuit Breaker (MCB) we recommend using a maximum of 3 power supply units (PSUs).

1 MCB (for example MCB S200 series manufactured by ABB)

PSU EU/US:	Line input 100-250 VAC, 50/60Hz, 2A @240VAC
AC plug	No, open end

\*If you are using only one luminaire with model B200M, please connect it to the right channel (main).

**IMPORTANT:** When connecting or disconnecting luminaires to power supply unit's cable, make sure electrical power is disconnected either at circuit breaker or from source. In case of surge peaks exceeding 4KV we strongly recommend using an external surge protector.

## Standards applied:

### EUROPE

**EN60598-1:** Luminaires. General requirements and tests.  
**EN60598-2-1:** Luminaires. Part 2: Particular requirements. Section one – Fixed general purpose luminaires.  
**EN62031:** LED modules for general lighting. Safety specifications.  
**EN 62493:** Assessment of lighting equipment related to human exposure to electromagnetic fields.  
**EN55015:** Limits and methods of measurement of radio disturbance characteristics of electrical lighting and similar equipment.  
**EN61547:** Equipment for general lighting purposes. EMC immunity requirements.  
**EN61000-3-2:** Electromagnetic compatibility - Limits - Limits for harmonic current emissions.  
**EN61000-3-3:** Electromagnetic compatibility – Limits - Limits for Voltage Fluctuations and Flicker.  
**IEC EN 61000-4-2:** Electromagnetic compatibility (EMC)- Part 4-2: Testing and measurement techniques - electrostatic discharge immunity test.  
**IEC EN 61000-4-3:** Electromagnetic compatibility (EMC)- Part 4-3: Testing and measurement techniques - radiated, radio-frequency, electromagnetic field immunity test.  
**IEC EN 61000-4-4:** Electromagnetic compatibility (EMC) - Part 4-4: Testing and measurement techniques - Electrical fast transient/burst immunity test.  
**IEC EN 61000-4-5:** Electromagnetic compatibility (EMC) - Part 4-5: Testing and measurement techniques - Surge immunity test.  
**IEC EN 61000-4-6:** Electromagnetic compatibility (EMC) - Part 4-6: Testing and measurement techniques - Immunity to conducted disturbances, induced by radio-frequency fields.  
**IEC EN 61000-4-8:** Electromagnetic compatibility (EMC) - Part 4-8: Testing and measurement techniques - Power frequency magnetic field immunity test.  
**IEC EN 61000-4-11:** Electromagnetic compatibility (EMC) - Part 4-11: Testing and measurement techniques - Voltage dips, short interruptions and voltage variations immunity tests.
