MADE IN BRITAIN

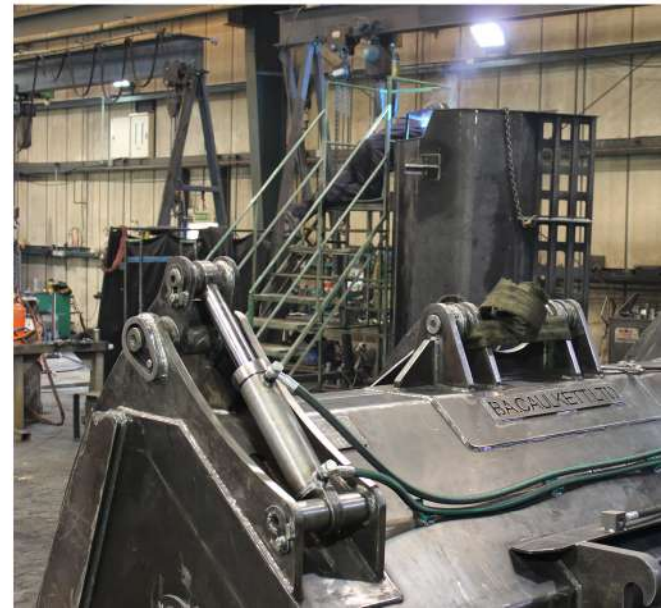

Who We Are

B. A. Caulkett Ltd is a long established UK based, family run business, with over 30 years' experience in the design and manufacture of high quality re-handling attachments for loading shovels in a variety of industries and applications. We offer a full range of high quality attachments for wheeled loaders under the BAC brand.

Our products are designed and manufactured to our customers' requirements and their specific application using the latest CAD software.

Our products are built to the highest quality standards using only premium material and have been proven and tested over the years. All engineers are coded to BS4872, and from inception to completion each attachment is fabricated and manufactured in house by an individual engineer.
