DIRECTOR'S REPORT

The Directors of the Company hereby present their Annual Report, together with the Company's Audited Annual Financial Statements for the year ended June 30, 2014. The Director's Report, prepared under Section 236 of the Companies Ordinance, 1984 and revised Code of Corporate Governance 2012 will be put forward to the members at the 42nd Annual General Meeting of the Company to be held on October 31, 2014.

The financial year 2013-2014 has seen a lot of changes in the political scenario of the country. A new government came into power and the business community, especially the Industrial Sectors such as Textiles Exporting Units had hoped that better management of the power sector, along with timely refunds of government duties will support the overall position. However, the situation improved slightly for a brief period where gas supplies remained constant but the usage allotted to textile units was reduced to a mere one-third of what they were entitled to. In addition, prices of electricity and gas were increased due to which an overall hike was seen in raw material costs.

Moreover, the first three quarters of the year 2014 have seen a sudden appreciation of the Pak Rupee. This has affected export sales revenues very adversely as many exporters have forward contracts. In US Dollar oriented contracts, this has resulted in an average of 6.66% loss and on Euro oriented contracts it has resulted in a 6.25% loss. However, our company performed well in the current difficult period considering the adverse circumstances of lowered exchange rates, limited gas supply and approximately 8-hour daily power cuts – which are often unscheduled. We are engaged in steadily trying to increase production and sales volume, while negotiating higher valued & better priced forward contracts.

The company's overall position seems to have improved. Despite a year ended in loss, the net loss for the year was decreased by Rs 10 Million. Our Sales revenues remained constant, and we saw a nominal decrease in our costs compared to the previous financial period. Other incomes contributed positively to our cash flow which

helped in keeping production on track despite the losses incurred. Furthermore, our financial costs also decreased for the period which helped in keeping costs down.

Although the financial results for the period reflect a loss, an overall positive scenario can be seen through the cash flow ahead. This gives the management a lot of hope for the upcoming period.

Financial and Operating Results

REVIEW REPORT TO THE MEMBERS

On Statement Of Compliance With The Code Of Corporate Governance For The Year Ended June 30, 2014

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors of Hala Enterprises Limited for the year ended June 30, 2014 to comply with requirements of the Listing Regulation No. 35 (Chapter XI) of both the Karachi Stock Exchange and Lahore Stock Exchange, where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Code requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code as applicable to the Company for the year ended June 30, 2014.

Further, we highlight an instance of non-compliance with the requirement of the Code as reflected in the Statement of Compliance (Serial No.9) that the Company has not arranged training course for its directors during the year.

CHIEF EXECUTIVE OFFICER

DIRECTOR

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

For The Year Ended June 30, 2014

Note 1

The Company and its Operations

The Company was incorporated in Pakistan on May 16, 1973 as a Private Limited Company and was subsequently converted into a public limited company. The registered office of the Company is located at 17.5 KM Sheikhpura Road, Lahore and its shares are listed on Karachi, Islamabad and Lahore Stock Exchanges. The Company is primarily engaged in manufacturing and sale of terry towels, kitchen towels and terry cloth.

Note 2

Basis of Preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives of the Companies Ordinance, 1984 shall prevail.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except to the extent of followings:

Staff retirement benefits (Gratuity)	Note 12.2	Present value
Certain property plant and equipment	Note 19	Revalued / Fair value
Investment in quoted companies	Note 20	Fair value

2.3 Functional and presentation currency

These financial statements are prepared and presented in Pak Rupees which is the Company's functional and presentation currency. All financial information presented in Pak Rupees has been rounded off to the nearest rupee, unless otherwise stated.

Note 3

Change in Accounting Policy

Staff retirement benefits

Defined benefit plan

IAS-19 (Revised) 'Employee Benefits' has amended the accounting for employment benefits. The Revised Standard has become effective for the Company from July 01, 2013. Major changes introduced by the Revised Standard are as follows:

- i) Past service cost to be recognized immediately in the profit and loss account.
- ii) Interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate to be measured at the beginning of the year.
- iii) Remeasurement of the net defined benefit liability / asset comprising the actuarial gain / losses and the difference between the actual return on investments and return implied by the net interest cost.
- iv) Recognition of remeasurement immediately in other comprehensive income.

The Company has adopted IAS-19 - Employee Benefits (Revised) and changed its accounting policy retrospectively in accordance with IAS-8 'Accounting Policies, Changes in Accounting Estimates and Errors' resulting in restatement of financial statements of prior periods. Corresponding period adjustments and restatements have been incorporated in the balance sheet, statement of comprehensive income and statement of changes in equity.

The effect of change in accounting policy is tabulated as below:

Effect on Balance Sheet	June 30, 2013	June 30, 2012
	Rupees	Rupees
Reserves		
As previously reported	(122,112,478)	(96,971,302)
Effect of change in accounting policy	15,447,817	1,302,676
As restated	<u>(106,664,661)</u>	<u>(95,668,626)</u>
Staff retirement benefits		
As previously reported	51,069,606	49,273,468
Effect of change in accounting policy	(15,447,817)	(1,302,676)
As restated	<u>35,621,789</u>	<u>47,970,792</u>
Effect on other comprehensive income		
Remeasurement of defined benefit liability recognized in other comprehensive income	<u>14,145,141</u>	<u>1,302,676</u>

There is no impact on profit and loss and cash flow statements as a result of the retrospective application of change in accounting policy. The comparative statement of financial position (balance sheet) as at June 30, 2012 has not been provided due to immaterial effect of restatement.

Note 4

Use of Estimates and Judgments

The preparation of financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and related assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The estimates and related assumptions are reviewed on an ongoing basis. Accounting estimates are revised in the period in which such revisions are made.

The estimates and underlying assumptions are reviewed on an ongoing basis. The revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

Judgments made by the management in the application of IFRSs that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are as under:

4.1 Property, plant and equipment

The Company reviews the useful lives of property, plant and equipment on regular basis. Any change in the management's estimates might affect the carrying amount of respective item of property, plant and equipment, with a corresponding effect on depreciation charge and impairment.

4.2 Doubtful receivables

The Company records its trade and other receivables after deducting appropriate provisioning using its prudence and experience. This estimate is subjective in nature. Recoveries of amounts already provided and / or the need of further provisioning cannot be determined with precision.

4.3 Employees' retirement benefits

The Company has recorded its employees' retirement benefits at fair value using actuarial assumptions regarding increase in salaries in subsequent years, remaining working lives of employees and an estimate of discount rates. Change in actuarial assumptions over the period of time may affect the fair value of post-employment benefits payable and the charge for such liability accounted for in any given period.

4.4 Inventories

The Company has recorded its inventories using lower of cost and net realizable value. Valuation of this inventory is reviewed at regular intervals for determination of possible impairment, if any. Any possible impairment may change the future value of inventories.

4.5 Taxation

The Company takes into account the current income tax laws and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the tax department at the assessment stage and the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

Note 5

Amendments to Existing Standards and Forthcoming New Standards and Interpretations

Note 6

Significant Accounting Policies

The significant accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years otherwise stated.

6.1 Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation and of which a reliable estimate can be made.

6.2 Staff retirement benefits

Defined benefit plan

The Company operates an unfunded gratuity scheme covering its permanent employees. Employees are eligible for benefits under this scheme after completion of one year of continuous service. The benefit is calculated basing upon the number of completed years of service and last drawn gross salary.

6.3 Taxation

Current

Charge for taxation for the year on taxable profit is based on applicable tax rates after taking into account all tax credits and rebates available, if any.

Deferred

The Company falls under final tax regime and therefore, no deferred taxation arises.

6.4 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company.

6.5 Property, plant and equipment

Owned

Property, plant and equipment are stated at cost less accumulated depreciation except freehold land that is stated at revalued amount. Buildings, plant and machinery and fittings and installations are stated at revalued amounts less accumulated depreciation.

The management reviews the market value of revalued assets at each balance sheet date to ascertain whether the fair value of revalued assets have differed materially from the carrying value of such assets, thus necessitating further revaluation.

Depreciation on property, plant and equipment has been provided for using the reducing balance method at the rates specified in Note 19. Depreciation on additions is charged from the month in which the asset was available for use upto the month in which the asset was disposed off.

Maintenance and normal repairs are charged to income as and when incurred. Major renewals and improvements are capitalized. Gain or loss on disposal of property, plant and equipment, if any, is shown in the profit and loss account.

Leased

The Company accounts for assets acquired under finance lease by recording assets and related liabilities. Principal values are determined on the basis of discounted value of total minimum lease payments to be paid by the Company. Finance costs are allocated to the accounting period in a manner so as to provide a constant periodic rate of charge on the outstanding liabilities. Depreciation is charged using the reducing balance method, at the same rates as applicable to owned assets, to write off the cost of assets over their estimated useful life.

Capital work-in-progress

Capital work-in-progress is stated at cost less any identified impairment loss.

6.6 Impairment

Carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the asset is estimated and impairment loss is recognized in the profit and loss account.

6.7 Investments

In associated undertakings

Investments in associates are accounted for using the equity method. This method is applied from the date when significant influence is established until the date when that significant influence ceases.

Investments in associates other than those described above are classified as "Available for Sale".

Other investments

Investments are initially recognized at cost, comprising the consideration paid and cost of transaction except in the case of investment at fair value through profit or loss where transaction costs are charged to the profit and loss account when incurred. For listed securities, closing quotations of stock exchanges on the last working day of the accounting year are considered for determining the fair value, while for unquoted securities, cost is considered as the fair value of securities.

The classification is made on the basis of intended purpose for holding such investments. These are measured at the balance sheet date as under:

Available for sale

These are stated at fair value and changes in carrying value are recognized in equity until the investment is sold or determined to be impaired at which time the accumulated gain or loss previously recognized in equity is included in the profit and loss account.

At fair value through profit or loss

These are securities which are acquired for the purpose of generating profit from short-term fluctuations in market price or dealer's margin, securities in a portfolio in which a pattern of short term profit taking exists or derivatives other than those held as hedging instruments.

Held to maturity

These are stated at amortized cost less impairment loss, if any, recognized to reflect irrecoverable amounts. Impairment loss is charged to the profit and loss account.

6.8 Stores and spares

These are valued at lower of moving average cost and net realizable value, except for items in transit that are valued at cost comprising the invoice value plus incidental charges paid thereon.

6.9 Stock in trade

These are valued at lower of cost and net realizable value and the cost is determined by using the following basis:

Raw materials	- At average cost
Raw materials in transit	- At cost comprising the invoice value plus other charges incurred thereon
Work in process	- At estimated average manufacturing cost
Finished goods	- Average manufacturing cost

Manufacturing cost in relation to work-in-process and finished goods comprises cost of materials, labour and appropriate manufacturing overheads.

Net realizable value signifies the estimated selling price at which goods in stock could be currently sold less any further costs that would be incurred to complete the sale.

6.10 Trade debts

All outstanding receivables are reviewed at the balance sheet date. The Company recognizes and carries these receivables at original invoice amount less an allowance for uncollectible amounts, if any. Bad debts are written off as incurred and provision is made against debts considered doubtful when the collection of the full amount is no longer probable.

6.11 Cash and cash equivalents

Cash and cash equivalents are carried at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and cash with banks.

6.12 Financial instruments

6.12.1 Financial assets

The classification depends on the purpose for which the financial assets were acquired. The management determines the classification of its financial assets at the time of initial recognition. The Company classifies its financial assets in the following categories:

At fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss. A financial asset is classified as held for trading if acquired principally for the purpose of selling in the short term. Assets in this category are classified as current assets.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These are included in current assets, except for maturities greater than twelve months after the balance sheet date, which are classified as non-current assets. Loans and receivables comprise advances, deposits and other receivables in the balance sheet.

Held to maturity

Held to maturity are financial assets with fixed or determinable payments and fixed maturity, where management has the intention and ability to hold till maturity are carried at amortised cost.

Available-for-sale

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the management intends to dispose off the investments within twelve months from the balance sheet date, in which case these financial assets are classified as short term investments in the balance sheet.

When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised directly in equity are included in the profit and loss account as gains and losses from investment securities. Interest on available-for-sale securities calculated using the effective interest method is recognised in the profit and loss account. Dividends on available-for sale equity instruments are recognised in the profit and loss account when the Company's right to receive payments is established.

Measurement criteria

All financial assets are recognised at the time when the company becomes a party to the contractual provisions of the instrument. Regular purchases and sales of investments are recognised at trade date that is the date on which the Company commits to purchase or sell the asset.

Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the profit and loss account.

Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. 'Loans and receivables' and 'held to maturity' investments are carried at amortised cost using effective interest rate method.

The fair values of quoted investments are based on current prices. If the market for a financial asset is not active (for unlisted securities), the Company measures the investments at cost less impairment in value, if any.

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired.

6.12.2 Financial liabilities

All financial liabilities are recognised at the time when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective yield method.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange and modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in respective carrying amounts is recognised in the profit and loss account.

6.12.3 Offsetting

Financial assets and financial liabilities and tax assets and tax liabilities are set off in the balance sheet, only when the Company has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis or to realize the assets and settle the liabilities

6.13 Foreign currency translation

Assets and liabilities in foreign currency are stated in Pak Rupees at the rates of exchange ruling on the balance sheet date or rate of exchange fixed under contractual agreements. Transactions in foreign currency are translated at the exchange rate prevailing at the date of transaction. All exchange differences are included in the profit and loss account.

6.14 Related party transactions

Transactions with related parties are based on the transfer pricing policy that all transactions between the Company and its related parties or between two or more segments of the Company are at arm's length prices using the comparable uncontrolled price method except in circumstances where it is not the interest of the Company to do so.

6.15 Revenue recognition

- Local sales are recorded on dispatch of goods to customers.
- Export sales are recorded at the time of receipt of bill of lading.
- Dividends on equity investments are recognized as income when the Company's right to receive the dividends is established.

6.16 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. Segment results, assets and liabilities include items directly attributable to a segment. Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment and intangible assets.

6.17 Borrowing costs

Borrowing costs are charged to income as and when incurred except those costs that are directly attributable to acquisition, construction or production of qualifying assets that are capitalized as part of the cost of assets.

6.18 Dividends

Dividends are recognized as a liability in the period in which these are declared.

Note 38

Financial Risk Management

38.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management policies focus on the unpredictability of financial markets and seek to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Board of Directors (the Board). The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk and liquidity risk.

Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Company is exposed to currency risk arising from various currency exposures, primarily with respect to the United States Dollar (USD). Currently, the Company's foreign exchange risk exposure is restricted to the amounts receivable from foreign entities. The Company uses export bill discounting to hedge its foreign currency risk, when considered appropriate. The Company's exposure to currency risk during the year has been as under:

	2014	2013
	Rupees in thousand	
Trade debts	31,495	34,517

The following significant exchange rates were applied during the year:

Rupees per US Dollar

Average rate	98.78	95.94
Reporting date rate	98.75	98.80

Sensitivity analysis

If the functional currency, at reporting date, had weakened / strengthened by 5% against the USD with all other variables held constant, the impact on profit before taxation for the year would have been Rs. 1.588 million (2013: Rs. 1.726 million) respectively higher / lower, mainly as a result of exchange gains / losses on translation of foreign exchange denominated financial instruments. This sensitivity analysis reflects exposure as at reporting date and is unrepresentative of the exposure during the year.

(ii) Other price risk

Other price risk represents the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Company is not exposed to commodity price risk.

Fair value hierarchy

Financial instruments carried at available for sale

- Level 1 Quoted market prices
- Level 2 Valuation techniques (market observable)
- Level 3 Valuation techniques (non market observable)

The Company held following financial instruments measured at fair value:

	2014			
	Total	Level 1	Level 2	Level 3
	Rupees	Rupees	Rupees	Rupees
Financial assets - Available for sale investments				
- Punjab Oil Mills Limited	5,446,041	5,446,041	-	-

- Tee Jay Corporation (Private) Limited	594,000	-	-	594,000
	<u>6,135,041</u>	<u>5,446,041</u>	<u>-</u>	<u>689,000</u>

	2013			
	Total	Level 1	Level 2	Level 3
	Rupees	Rupees	Rupees	Rupees
Financial assets - Available for sale investments				
- Punjab Oil Mills Limited	3,300,159	3,300,159	-	-
- Premier Garments Limited	95,000	-	-	95,000
- Tee Jay Corporation (Private) Limited	594,000	-	-	594,000
	<u>3,989,159</u>	<u>3,300,159</u>	<u>-</u>	<u>689,000</u>

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company has no significant long-term interest-bearing assets. The Company's interest rate risk arises from short term borrowings. As the borrowings are obtained at variable rates. These expose the Company to cash flow interest rate risk.

At the balance sheet date the interest rate profile of the Company's interest bearing financial instruments was:

	2014	2013
	Rupees in thousand	
Floating rate instruments		
Financial liabilities		
Short term borrowings	89,201	89,201
Financial assets		
Bank balances - saving accounts	8.2	8.2

Cash flow sensitivity analysis for variable rate instruments

If interest rates at the balance sheet date, fluctuate by 1% higher / lower with all other variables held constant, profit before taxation for the year would have been Rs. 0.892 million (2013: Rs. 0.892 million) lower / higher, mainly as a result of higher / lower interest expense on floating rate borrowings. This analysis is prepared assuming the amounts of liabilities outstanding at balance sheet dates were outstanding for the whole year.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Carrying amounts of financial assets represent the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	2014	2013
	Rupees in thousand	
Long term investments	6,135	3,989
Long term deposits	3,666	3,449
Trade debts	31,969	35,105
Deposits and other receivables	10,426	11,735
Bank balances	1,382	2,161

The aging of trade debts as at balance sheet date is as follows:

Past due 1 - 30 days	17,933	19,693
Past due 31 - 60 days	10,342	11,356
Past due 61 - 120 days	778	853
More than 120 days	2,916	3,203
	<u>31,969</u>	<u>35,105</u>

The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. The Company believes that it is not exposed to major concentration of credit risk as its exposure is spread over a large number of counter parties and trade debts are subject to specific credit ceilings based on customer credit history.

The credit quality of bank balances that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rate:

	Rating		Rating Agency	2014	2013
	Short term	Long term		Rupees in thousand	
Faysal Bank Limited	A1+	AA	PACRA	938	1,687
Askari Commercial Bank Limited	A1+	AA	PACRA	113	356
The Bank of Punjab	A1+	AA-	PACRA	3	3
Bank Al-falah Limited	A1+	AA	PACRA	6	6
Soneri Bank Limited	A1+	AA-	PACRA	2	5
HSBC Bank Limited	P-1	A1	Moody's	-	27
United Bank Limited	A1+	AA+	JCR-VIS	15	15
Investment Development Bank of Pakistan	P-1	A1	Moody's	17	17
NIB Bank Limited	A1+	AA-	PACRA	2	45
				<u>1,096</u>	<u>2,161</u>

Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly, the credit risk is minimal.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash and the availability of funding through committed credit facilities. Following are the contractual maturities of financial liabilities, including interest payments.

Contractual maturities of financial liabilities as at Jun 30, 2014

	Carrying Amount	Contractual cash flows	Within 1 Year	Within 2-5 Years	Above 5 Years
	----- Rupees in thousand -----

Note 39

Capital Risk Management

While managing capital, the objectives of the Company are to ensure that it continues to meet the going concern assumption, enhance shareholders' wealth and meet stakeholders' expectations. The Company ensures its sustainable growth viz. maintaining optimal capital structure, keeping its finance cost low, exercising the option of issuing right shares or repurchase shares, if possible, selling surplus property, plant and equipment without affecting the optimal production and operating level and regulating its dividend payout thus maintaining smooth capital management.

In line with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including current and non current) less cash and cash equivalents. Total capital is calculated as equity as shown in the balance sheet plus net debt.

As at balance sheet date, the gearing ratio of the Company was as under:

	2014	2013
	Rupees in thousand	
	<i>Restated</i>	
Total borrowings	89,201	89,201
Cash and bank balances	(2,799)	(2,322)
Net Debt	86,402	86,879
Equity	6,765	20,487
Total Capital	93,167	107,366
Gearing Ratio	92.74%	80.92%

Note 40

Segment Information

For management purposes, the activities of the Company are recognized into one operating segment, i.e. manufacturing and sales of towel. The Company operates in the said reportable operating segment based on the nature of the product, risk and return, organizational and management structure and internal financial reporting systems. Accordingly, the figures reported in these financial statements relate to the Company's only one reportable segment. Company-wide disclosures regarding the reportable segments are as follows:

	2014	2013
