

Safeguarding Solutions

Websites

Engaging, multi-functioning, easy-to-navigate websites that are fully optimised to be viewed across all types of devices. With a choice of five different templates, all created specifically for Safeguarding Boards, these sites have proved popular with both Boards, users and have received praise from Ofsted for their accessible and interactive designs.

Benefits

Works on mobiles and tablets

Choice of five template options

Ability to make immediate updates

Able to use existing website address

Detailed site analytics and reports

Optional social media integration

In-depth training and support

Flexible costs to suit all Boards

Key Features

Flexible updates

All sites are made using a content management system which allows Boards to make immediate updates as-and-when required.

Training and support

From the initial training to the on-going support service offered all year round; we maintain a four-hour response time promise and ensure you site is secure, protected and always up-to-date.

Analytics and reports

We provide full analytics reports for your websites. These can be adapted and tailored to each Board's specific needs and requirements.

Fully responsive

Every website we create is fully functional on all devices including all mobiles and tablets, so no matter where you are and what you are using, the site will be optimised for your viewing.

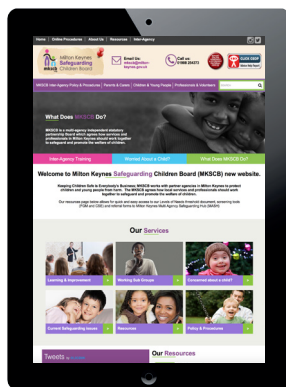

“ Phew were a great support throughout the process of creating our new website. They were able to work well with people at all different levels and offered a lot of support, patience and understanding... I was very impressed by how easy they made the whole process, using their SCB and SAB knowledge to guide and advise us on the best way to get what we wanted out of the site.

They offered the simplistic advantage of combining three functions together with one company (website, procedures and events), which has proved to be much more cost effective and made a huge difference to our admin team's time efficiency... Our whole team have been surprised by the simplicity of the content management system which was made even easier by Phew's training on the system. ”

Helen Craddock, MKSCB Board Manager

“ ...an accessible, informative and interactive website featuring Twitter, allowing LSCB members and the Chair to have a wide range of ongoing exchanges with the Board's audiences. ”
