

SIGNS OF THE TIMES BRACKETS & ACCESSORIES

Whether your sign is to be wall mounted, fixed to a post or mounted on a decorative bracket Signs of the Times will have a solution to suit your requirements.

Shapes & Sizes

Designed and forged to suit your project. We make brackets for smaller house signs, business signs and the larger village sign brackets with a sleeve to fit over the top of an oak post.

Tree planting signs are often fixed to an aluminum or nylon stake.

Finish & Appearance

Steel brackets and posts are generally galvanised and powder coated. Aluminium is sand blasted clean, acid etched and painted.

Oak posts for village signs are planed, corners chamfered and lightly oiled.

Design & Artwork

We can make brackets to your own design or we can suggest a suitable design for your project.

Fixings:

We also offer security screws, and studs embedded into the back of the sign for cementing into the wall or ground

For further information regarding materials, posts and fixings see our FAQ's
