

# Tried, tested and trusted

Up to £125 cashback and 3 year warranty available NOW

## Performing under pressure

Having been put to the test by tough independent testers and business everywhere, the verdict is in on the Brother laser range: high performance, reliability and great value for money.

Independent testing facility Buyers Lab examined the Brother laser range over 2 months, printing up to 80,000 pages, and the results speak for themselves. With no service callouts required and no post-test servicing needed, the printers proved themselves to be faultlessly reliable and excellent performers time after time. It's clear how these machines have helped Brother become the number one brand for laser printers.

## Zero misfeeds\*

Superior print quality

Simple setup and maintenance

Mobile and cloud connectivity

High-grade security

Large paper capacity

Low energy consumption

## Zero Service calls\*

## Reliability where it matters most

Businesses across the UK have put Brother's laser range to the test too, and trust them to deliver every time. Here's what happy customers are saying about these dependable printers.

"Does everything we want it to and more. So easy to use and really quick."

Bazaar voice customer review  
12/09/17, Brother.co.uk

"Makes all our jobs in the office easier and couldn't be any more user-friendly."

Bazaar voice customer review  
13/05/17, Brother.co.uk

"Excellent value for money, with a good connectivity and fast printing"

Bazaar voice customer review  
22/07/17, Brother.co.uk

## What people say...

## Colour printers you can count on

Every machine across the colour laser range has been proven to deliver crisp colour prints every time. Whether you need a dependable single function printer or a high-performance all-in-one, you can count on our tried and tested colour laser range to deliver the 'highly reliable performance' recognised by Buyers Lab.
