## Inclusive CLASSVR

Inclusive ClassVR is a simple, affordable package that gives you the power to play and create your own Virtual Reality experiences for the classroom.

### **Virtual Reality (VR)**

Inclusive ClassVR provides immersive, sensory experiences where students can safely interact and explore virtual worlds and environments without boundaries or the restriction of physical limitations. Virtual Reality provides engaging, multi-sensory stimulation and opportunity for those students with physical disabilities to experience things they may not be able to physically access. The perfect solution for students with learning difficulties, sensory impairments and physical disabilities in SEN classrooms or establishments!

### **Augmented Reality (AR)**

Inclusive ClassVR headsets also include a front-facing camera and our Augmented Reality Classroom (ARC) App. Enabling you to bring educational content to life and allow students to view and interact with exciting 3D models. Students can see their normal surroundings, but when they look at special QR codes on our worksheets or posters, the content comes to life! This allows them to get up close and personal with content, such as a beating heart, spitfire, triceratops, planets and other exciting educational resources.

**VR32 Inclusive ClassVR ..... \$2995**

## Headsets, Storage and Charging Case

Inclusive ClassVR includes four 'standalone' headsets that deliver fully immersive experiences. Unlike other VR headsets, Inclusive ClassVR does not require any additional devices, such as phones. Headsets come in a rugged storage and charging case providing maximum security and ensures all headsets are charged safely and swiftly whilst being portable between classrooms.

## Inclusive Experiences

Inclusive ClassVR gives access to a wide range of 360° videos and resources including:

**Sensory Experiences** - a selection of videos that provide engaging multi-sensory stimulation including landscapes, environments and scenes.

**Physical Development** - parachute, scuba dive with turtles, ski and surf. Providing some students with the opportunity to experience things they may not be able to physically access.

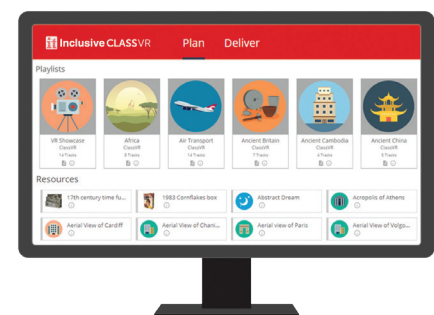

## Curriculum Activities

**Curriculum Activities** - search hundreds of ready-made resources to build your own lesson. There are currently over 500 pre-made activities covering a huge range of topics and curriculum subject areas aligned to UK National Curriculum and US State Standards.

**Personalized Content** - with a 360° camera, teachers can create personalized content and teach important life skills activities that can help, educate and ready students to live. The possibilities are endless.

## Teacher Portal & CPD Training\*

Plan lessons in just a few simple steps and deliver a defined playlist of resources to multiple headsets simultaneously. Monitor what students are seeing and guide them through the experience, highlighting points of interest. Teachers also have access to Inclusive ClassVR Online CPD Training which includes comprehensive, bite-sized lectures, videos and quizzes. Designed to help you get the most from your new investment.

\*Inclusive ClassVR includes a 12 month annual subscription.
