- **Innovative Packaging** Shaped & Embossed Cans

A testimony to the quality of our product is our long-term relationship with Colgate-Palmolive

ADVANTAGES OF METAL CANS

One of the earliest inventions of modern age is the metal can for use in product packaging, The many advantages of the metal can has contributed to its widespread adoption.

FOR PRODUCT MANUFACTURERS

Metal cans are cost effective, suitable of use on high speed lines, resilient to damage, consistent in shape & size, compliant with various safety norms, eco-friendly and 100% recyclable.

FOR PRODUCT DESIGNERS

Metal cans offer flexible printing medium and are exciting to design due to wide variety of shapes, sizes, textures and colors. Metal cans are beautiful look at, improve product placement and value proposition.

FOR RETAILERS

Metal cans offer easier supply-chain management. They are durable and products packed in metal cans generally have a higher shelf-life.

FOR CONSUMERS

Metal cans are convenient to handle and easy to stock. Metal cans are inherently UV proof and bacteria resistant. Food items and packed in metal cans retail their texture, aroma and flavor. For many, metal cans rekindle pleasant childhood memories.

MILESTONES

We are one of the leading manufacturers of metal containers in India. Currently we manufacture over 10 million cans per month. We have the largest fully integrated line for manufacturing decorative metal cans for exports.
