Lex Machina®

Your Winning Edge for Corporate Litigation

What Is Legal Analytics?

Lex Machina, the creator of **Legal Analytics**, has the leading platform for strategic litigation insights about **courts**, **judges**, **lawyers**, **law firms**, and **parties**. We help litigators land more clients and win more cases.

Our Legal Analytics provide practice-specific information on **resolutions**, **timing**, **findings**, **damages,** and **remedies**, for cases like yours. Over three quarters of Am Law 100 firms, as well as many of the largest corporations in the world use Lex Machina.
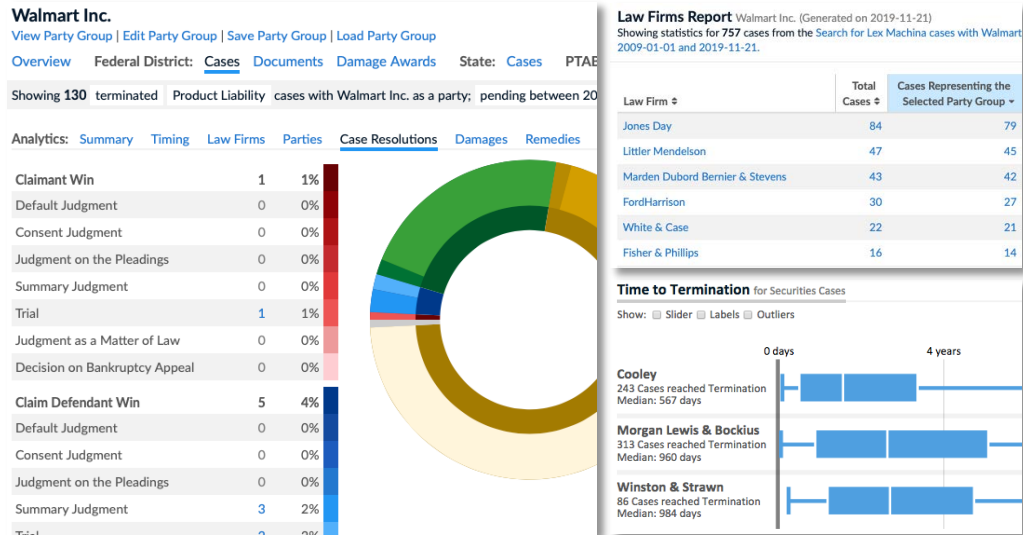

Unique Benefits

- Lex Machina has the most **accurate and valuable** data, compiled, cleaned, and enhanced by a combination of machine learning and in-house legal experts
- We have unique **practice-specific** filters and tags that produce valuable strategic insights
- The highly customizable **Case List Analyzer** enables you to find and analyze cases that are just like yours
- Our **Attorney Data Engine** supplements and corrects counsel data to have an accurate record of your lawyers' and your opponents' appearances
- Lex Machina has the only **Legal Analytics Apps** for comparing judges, parties, law firms, creating winning motions, exploring damages, or expert witnesses
- It's also really **easy to use** and gets results with just a few clicks that otherwise could take days or weeks to compile

What Can I Ask?

- Which of the four firms that I am considering, has the fastest time to summary judgment?
- How much experience does my opposing counsel have with business liability insurance cases?
- Which law firms have experience defending securities cases in the Southern District of New York?
- How often has Judge Klausner awarded attorney's fees in ERISA cases and what were the amounts?
- What is the median time to termination for employment cases in the Eastern District of Pennsylvania?
- What are the likely case resolutions in a contracts case in the Northern District of Illinois?

- Trade Secret

State (Civil):
- Delaware Court of Chancery
- Los Angeles Superior Court
- Houston Area State Courts
- More to come…

Use Cases

- The general counsel of a tech company has only one paralegal, but because they launch a lot of physical products into the market, they face a lot of patent threats. She said: "Sometimes I need a big bat and sometimes I need a small bat. One has a much higher price tag than the other. Lex Machina helps me choose the correct counsel for the circumstances."
- A corporate counsel is bringing in four law firms to interview for specific work. They all have brag books and say they are the best. What does the data say about their success rates, their familiarity with her practice area, her judge, her court, or her opponent? How quickly have they achieved success? "Lex Machina adds data to the due diligence process and not just reputation and anecdotal evidence".
