

## Brilliance PSA Overlaminates

D&K Brilliance™ Pressure Sensitive Overlaminates offer the perfect alternative to higher-cost pressure sensitive films. Brilliance™ vinyl overlaminates contain UV inhibitors to reduce color shift caused by UV rays and are designed for short to medium term applications, including outdoor graphics and signage. It is recommended to run Brilliance™ Pressure Sensitive Overlaminates with 120° F of heat resistance to produce the clearest, most durable graphics possible.

### Gloss (UV) Vinyl - 3 mil

A bright, glossy vinyl finish that brings out the brightest colors in your graphics. This film features UV inhibitors to protect your image from indirect sunlight and indoor lighting.

### Luster (UV) Vinyl - 3 mil

Features a perfect blend of gloss and matte. This low glare finish will make your graphics appear elegant and rich.

### Matte (UV) Vinyl - 3 mil

A perfect ultra matte choice that softens your images and reduces glare. This film is especially beneficial for trade show signage where glare from overhead lighting can become an issue. Also incorporates UV inhibitors to protect your image from indirect sunlight and indoor lighting.

### Canvas (UV) Vinyl - 4 mil

A unique textured product imparts the look of real canvas on any paper graphic. Ideal for fine art prints and high-end graphics.
