

IS SOMETHING MISSING FROM YOUR UNIFIED COMMUNICATIONS PLATFORM?

Standardize on a **single platform**. Or **extend the capabilities** of your current one. Either way, StarLeaf can help.

One app. All you need.

The StarLeaf app is an enterprise-class communications and collaboration app that extends seamlessly and securely from mobility to desktops to meeting rooms.

Intuitive and reliable, the StarLeaf app simplifies your business communications and opens the door for unprecedented productivity.

Legacy system. New features.

Extend the capabilities and life of your current UC platform with the StarLeaf app and StarLeaf cloud services.

- Works with Cisco, Polycom, Lifesize, and any other H.323 & SIP room systems
- Works with Skype for Business and Microsoft Teams
- Seamless calendar integration
