Bremont extends SOLO collection

MARCH 2016

Bremont Watch Company is pleased to announce the release of two new SOLO timepieces in polished stainless steel. Designed as a classic pilots watch, the SOLO is an obvious choice for those wanting to enter the world of Bremont automatic chronometers. The watch will be available with a handsome black dial or a smart white variant; the polished case offering an enhanced elegance to the original collection. Legibility plays a significant role in its design with the applied indexes adding a more three dimensional view together with large lumed aviator-style hands for optimum clarity.

As with the core collection timepieces, this polished steel case will undergo a similar hardening treatment, providing high impact resistance but still retaining its polished surface finish. The signature coating gives the watch case extreme hardness, excellent toughness, good wear and high impact fatigue resistance, a technique used widely in the aerospace industry.

The SOLO polished is housed in the classic Bremont 43mm Trip-Tick® three-piece case and is powered by the modified BE-36AE movement which can be viewed through the exhibition case back. The watch is water resistant to 100m (10ATM), and the domed sapphire crystal has nine layers of anti-reflective coating to each side.

No pilot ever forgets their first solo flight and the exhilaration as the wheels leave the runway. This feeling was undoubtedly an inspiration behind the SOLO and with it the ability to leave a long lasting impression on its wearer.

Giles English, Bremont Co-Founder; “Having seen such a positive response to the polished steel watches we have introduced in other Bremont ranges we felt it was fitting to extend the SOLO line in this way. Being such a classic design it was an obvious choice that we knew would lend itself very well to this elegant finishing and we believe the result to be a pair of beautifully smart timeless watches.”

ABOUT BREMONT

Bremont is an award-winning British luxury watch brand, manufacturing mechanical watches in Henley-on-Thames, England. Bremont is also making considerable investment with its UK watch making and manufacturing and at the end of 2014 launched a new facility in Silverstone to manufacture case and movement components.

Co-founded by brothers Nick & Giles English in 2002, Bremont has made a substantial impact on the watch industry in a very short period of time. The brand remains true to its original principles of; British, Aviation, Engineering and Adventure.

As well as manufacturing watches for some of the most exclusive military squadrons around the world, Bremont continues to play an influential role in revitalising the British watch industry, the birthplace of numerous timekeeping innovations still used today. Recent collaborations have seen Bremont work with the likes of aviation giant Boeing and the iconic British automotive company Jaguar.

Bremont has been appointed Official Timing Partner to the 35th America’s Cup and to the defending champion, ORACLE TEAM USA. Renowned as the oldest trophy in international sport the America’s Cup first took place in 1851 on the waters off England’s south coast. As the first official British timing partner to The America’s Cup since 1851 Bremont has embarked on a very exciting project to produce a special edition collection of timepieces to celebrate its involvement.

SOLO/PW
CASE BACK

SOLO/PW WATCH FEATURES

MOVEMENT

Modified calibre 11 1/2" BE-36AE automatic chronometer, 25 jewels, Glucydur balance, Anachron balance spring, Nivaflex 1 mainspring, 28,800bph, 38 hour power reserve. Bremont moulded and skeletonised decorated rotor.

FUNCTIONS

Hour/minute/second, date at 3h.

CASE

Hardened polished stainless steel Bremont Trip-Tick® construction with scratch resistant DLC treated case barrel. Case diameter 43mm, lug width 22mm.

CASE BACK

Polished stainless steel case back with integrated flat crystal, 5 stainless steel screws with polished heads.

DIAL

White metal dial and applied polished nickel indexes. Polished nickel hands with Super-LumiNova® coating.

CRYSTAL

Domed anti-reflective, scratch resistant sapphire crystal.

WATER RESISTANCE

Water resistant to 10 ATM, 100 metres.

RATINGS

C.O.S.C chronometer tested and certified.

STRAP

Calf-skin leather strap with pin buckle.

CERTIFICATION

Individually serial numbered with accompanying C.O.S.C certification.
