

THE ULTIMATE GUARDING FASTENER.

The Smart Wedge Clamp never has to be removed, but still allows guards to be taken on and off with ease.

- No hassle guard installation mechanism
- Install guards using Smart Wedge Clamps in less than 15 seconds
- Pivots open and closed with no loose parts
- Guards can be removed easily for maintenance
- Zinc plated for durability (also available in stainless steel)
- Assembly includes: Smart Wedge Clamp, nut, lock washer and cable tie
- **The new design allows a cable tie to force the Wedge Clamp to be locked in place tight**

PATENT PENDING
