

- Preventing pollution, reducing waste and ensuring wherever practical measures are implemented to protect and preserve environments. Whenever possible transport will be teamed up in order to reduce pollution.
- Taking action to eliminate or reduce as far as practicable, any potentially adverse environmental impacts. Including the disposal of refrigeration equipment, refrigerant, oils, lamps, cardboard etc is all disposed of through a network of registered organizations.
- Promote environmental awareness amongst our suppliers, contractors and partners by implementation of operational procedures. We only import full container loads of refrigeration equipment into the UK, and all relevant paperwork from suppliers is encouraged to be electronic
- Seek to work in partnership with the community by behaving in a considerate and socially responsible manner;
- The Company Environmental Policy is issued to all employees and that the written arrangements made to implement the policies. All our engineers have F Gas safe handling certificates.
- We endeavour to comply with all current legislation and codes of practice at all times.
