BERRY  ALLOC

_____ walls.

Discover the joy of a Scandinavian lifestyle.

Ready to be inspired?

Enjoy the simplicity and elegance of mother nature by welcoming it inside.

Erase the boundaries between indoors and outdoors.

It doesn't matter if you like traditional, sober, elegant or cozy designs. You'll find the perfect wall panel in our wide range of natural-looking designs.

Designed to create a warm and authentic atmosphere, our wall panels are made for busy, chaotic mornings, and quiet, cosy evenings.

For the kids splashing around and making a mess. For early morning routines and for late-night hot showers. For you.

Live life your way. Our walls will blend right in.

relax, it's BerryAlloc

/ wall&water.

Why choose Walls	6
Collection guide	28
Installation	32

why choose **wall&water.**

Nothing beats **the feeling of home.**

Home is what you make it. That's why our collection of wall panels has a design for everyone. Because we've all made life our own.

Choose from a contemporary range of natural-looking designs and different tile sizes to give your space a new look and feel.

So, if you're on the lookout for a versatile, durable and easy way to renew your bathroom interior ... Look no further.

Turn your bathroom into a private spa. Our walls won't mind.

Go for walls and enjoy...

Lifetime warranty

Just relax, because we promise you a lifetime warranty for every BerryAlloc wall panel in your home.

Fast & easy installation

Glue or interlock, our wall panels combine ease of installation with ease of maintenance. Whether it's your first time or your daily occupation.

Waterproof

Our high-pressure Wall&Water laminate panels can withstand humid and moist environments, making them perfectly suited for bathroom use. Splash around all you want. Our wall panels are made to last.

UV-resistance

Let the sun in and don't worry about discolouring your walls. All our wall panels are UV-resistant. Their design won't change over time.

Environmentally conscious

We take environmental challenges seriously and aim to live up to the demands set for sustainable development. That's why our products are produced, used, recycled and destroyed without damage to the natural environment.

**lifetime

Our walls fit your interior,
your habits, your home.

**The choice is yours.
Find the design you love
in our collection.**

Scandinavian design. Scandinavian charm.

Just relax and create
a perfect sense of
well-being with
Natural Slate.

**It sure sets
the mood,
doesn't it?**

The powdery shades of Black Velvet.

The powdery shades of black give Black Velvet its distinct charcoal look. Which, in turn, bathes your bathroom in a masculine touch of understated elegance. Fill up your bathtub and experience absolute privacy while soaking next to the flickering light of a lone candle.

For those who like a sense of peace and quiet.

Our Snow White wall is timeless in style, quietly understated, simple yet sophisticated.

A timeless appeal.

The glossy surface creates a certain balance and order.

Clean styles, crisp lines.
The sleekest of looks.

Start your day with a fresh smile.

We treat our marble
extra soft, which makes
it rich in details and
keeps it more natural.

Bring some beauty from
outside into your home.
Every single day.

Our designs are
inspired by nature.

**Relax
and feel
surrounded
by nature.**

Combine different
natural elements for
a mood-boosting
look and feel.

Use Santorini Marble to make a bold statement.

Did you
know? Most
colours used in
Scandinavian
interiors are
monochrome.

Are you a monochrome
traditionalist? Then you know
shiny, crisp, and even clinical is
the name of the game.

Create your own personal space.

Your bathroom is one of the few places you can call your sanctuary. Cement will instantly give you that zen feeling.

Use colour to create an atmosphere of warmth, well-being and cosiness. All you need to feel at peace and enjoy the simple pleasures. The feeling of soap on smooth skin, the steam of a hot shower wrapping your body like a blanket ...

Oh, nostalgia!

Federa has that retro feeling that takes you right back to your childhood – cosy summers at grandma's cabin and lots of happy, carefree moments.

fast & easy
installation

Installing your Wall&Water will give you **instant satisfaction.**

Glue or interlock, our wall panels combine ease of installation with ease of maintenance. Wall&Water is the only system in the world offering you the look of a tiled wall this quickly and easily - all without the need for grouting.

The panels can be glued directly onto a solid wall. In this case, the walls must be absolutely straight and smooth.

For walls with existing coverings of varying thickness (such as tiles halfway up), you can fix wooden boards of the same thickness and use BerryAlloc glue.

Wall&Water panels are best mounted using screws on to a wooden frame. The panels interlock thanks to the unique 'lock' system developed at our engineering department in Norway. The result: a smooth wall with no visible joints. Your bathroom will be ready in a splash!

More detailed installation instructions can be found on our website or YouTube channel: berryalloc.com & youtube.com/berryalloc.

Easy from start to finish.

The difference is in the details.

Go for an easy and efficient installation with our clever accessories. They come in handy when installing our wall panels.

You can use our profiles to provide a smooth transition with another wall. Choose between a bright white color or go for a modern aluminum look.

technical guide. wall&water

product description

- 1.1

Dimensions

10.2 x 2400 x 600 mm (decor)10.2 x 2400 x 620 mm (panel)
- 1.2

Packaging

2 panels/pack, 2.88 m² coverage (weight 22.6 kg)
- 1.3

Composition

- surface layer

- substrate

- backing

High Pressure Laminate, HPL.

Plywood, 7 layers

Spantex – engineered balancing paper with plastic impregnation (PE).
- 1.4

Joint sealing

To be sealed with BerryAlloc Sealant.
- 1.5

Installation

Glue-free mechanical locking system, installed according to installation instructions.
- 1.6

Classifications

SINTEF technical approval no. 2410.

- Wet-room approved product acc. to BVN (Byggebransjens Våtromsnorm)

European Technical Assessment no. ETA-18/0735.

general requirements

characteristics		test standard	unit	requirements	typical values
2.1	Thickness of the element, t	EN 324-1	mm	± 0.4	± 0.4
2.2	Length of the surface layer, l	EN 324-1	mm	± 1.0	± 0.5
2.3	Width of the surface layer, w	EN 324-1	mm	± 0.5	± 0.25
2.4	Squareness of the element, q	Diagonal variance	mm	≤ 1.0	≤ 0.5
