ACRYLA-DECK™ WATER-BASED SOLID COLOR HI-BUILD DECK COATING WITH COOL FEEL™ TECHNOLOGY

FEATURES & BENEFITS:

- **COOL FEEL™ TECHNOLOGY** reduces the temperature of concrete surfaces exposed to UV rays by up to 20 degrees F.
- Highly resistant to pool chemicals and many other household chemicals for long-lasting beauty and protection.
- Hi-Build coating limits the surface from becoming slippery compared to conventional pool coatings.
- Water-Based formulation allows for easier application and clean-up
- Extra-White and Deep Bases available for various custom color options

RECOMMENDED USES:

- Pool decks
- Patios
- Walkways
- Concrete floors
- Concrete decks

IMAGINE THE POSSIBILITIES OF CONCRETE.

A high-quality hi-build latex deck coating that provides superior protection and beauty for both exterior and interior concrete. It may be applied to bare concrete or previously painted surfaces. H&C® ACRYLA-DECK™ Hi-Build Deck Coating with COOL FEEL™ TECHNOLOGY is designed to reduce the temperature of concrete surfaces exposed to UV rays by up to 20 degrees F.*

* Temperature reduction may differ due to factors such as: ambient temperature, time of day, and the amount of direct sunlight on the surface.
