

Reduce Total Cost of Ownership with IITRun SAP Business Support

Enable enterprise growth with reduced risk and lower TCO. IITRun's SAP Business Support services add value to you IT *and* business operations. *We design for the future while we build for today!* You might consider:

For the IT Department

How do we add capacity at a lower cost? What is the right balance of on-shore and off-shore support? How do we scale quickly to meet business demands? How do we meet short term skill gaps and support long term stability?

For the Business

How can we leverage outsourcing and offshore support to improve productivity? What are some repetitive tasks that can be outsourced freeing up key resources? How do we speed up IT requests?

IITRun IT Services

IITRun delivers SAP and IT solutions at an accelerated pace for a lower total cost. We leverage offshore teamwork while our onshore experts quickly ramp up helping you architect the solutions you need. Our results oriented offshore team is available at all skill levels, and at very competitive rates, and can grow to support short or long-term requirements. Service areas include:

- SAP Functional / Technical support / Development including Fiori, HTML5, microservices, and more
- Custom Software Development
- ETL / Integration tools such as SAP Cloud Platform Integration, MuleSoft, Informatica and Dell Boomi
- EDI Support
- Automated / Batch job monitoring

IITRun Business Support

IITRun support services extend beyond traditional IT services. With collective expertise across numerous industries over decades in the service industry, we also provide thought leadership and process innovation. Best practices are only the beginning, we instill these values in all of our team including our offshore resources. Our offshore business support includes:

- Business Model Research, Feasibility Studies, and Prototyping
- Client Market Research
- Data Entry Services
- Market Surveys
- Innovation Research / Think Tank

These are just a few highlights of our business support services. We are very interested in learning how we can help and your success is our goal! Please contact us today for more information.
