

## BATTERY TAKE BACK POLICY

As a producer of industrial batteries under the Waste Batteries and Accumulators Regulations 2009, we, Segen Ltd, produce Lithium ion batteries.

We are obliged to take back free of charge, end of life industrial batteries for treatment and recycling.

We are required to do this in any calendar year we place new industrial batteries on the market.

If any of our customers, or in certain cases other end users, require us to take back industrial batteries they should contact us at [info@segen.co.uk](mailto:info@segen.co.uk).

We will agree the necessary arrangements for the return, proper treatment and recycling of the waste industrial batteries.
