- Long Battery Life
- Movement Alerts
- Rechargeable Battery
- Text and Email Notifications
- Customer Support
- iPhone and Android App

Find comfort in knowing where the things that matter are

ACCESS ANYWHERE

Track your assets from anywhere with internet access.

Get the Android or iPhone app free. Get real-time locations and alerts immediately.

AMAZING SUPPORT

Multiple support options gives you instant access to our support team.

Don't sit on the phone pushing buttons, talk to a human.

THE THREAT IS REAL

More than \$18 million of cargo was stolen in the United States in 2014.

Don't end up being a statistic. The choice to protect your stuff is a no-brainer.

WHAT IS IT?

The Bolt 4G is a real-time GPS tracker that combines 4G LTE cellular and GPS technology. It offers a large rechargeable internal battery for up to 4 months of continuous tracking. Keep track of vehicles, trailers, RV's and more with the most advanced, reliable, user-friendly online monitoring system available.
