

NARROW AISLE MAN UP FORKLIFT TRAINING

Luft Training Services are an Independent forklift truck training centre. We train operators on, Counterbalance, Reach, Bendi, Side Loaders, rough terrain, electric and manual pallet truck plus many more.

Narrow Aisle Man Up Forklift Training is not in any way an option for companies operating Narrow Aisle forklift trucks on its property. Regulations require all employers to take reasonable steps to ensure the safety among their employees, but courts are always going to assign liability to managers and companies who fail to ensure their workers have been correctly trained and hold the appropriate certification.

Narrow Aisle Man Up Forklift Truck Training is available to businesses and individuals across West Sussex and East Sussex to include Chichester, Bognor Regis, Littlehampton, Worthing, Lancing, Hove, Brighton and all surrounding areas. If you are not sure if we cover your area please call us or use our contact form page as every member of the team are always happy to assist you.

ABOUT NARROW AISLE MAN UP FORKLIFTS

The Narrow Aisle Forklift Truck offers three very narrow aisle truck models with a load capacity ranging from 1 to 1.35 tonnes. The VNA “combi” trucks are able to perform both full-pallet handling and order picking at heights in narrow aisles.

Designed for wire or rail guidance, these forklifts can handle loads up to heights of 13.6 metres. Additional features include special truck fork units, which can pick up and deposit loads at both the left and right side without compromising productivity or safety.
