Powerbox recognizes that counterfeiting is a serious global problem that affects companies worldwide.

To protect our customers we have implemented a proactive and comprehensive counterfeit prevention policy for all purchases entering or leaving our warehouse.

To help prevent the purchase of counterfeit, suspect or unapproved products, we purchase components directly from:

- OEM's or CEM's
- Franchised Distributors
- Manufacturer or Agent

Certain hard-to-find or obsolete products cannot always be obtained from these primary sources. In such instances, it may be necessary to source components through brokers or independent distributors. In these cases Powerbox well recognized vendors shall only be used.

To continually verify vendor quality, we carefully monitor the ongoing performance of all suppliers utilizing a variety of criteria.
