

ENVIRONMENTAL MANAGEMENT POLICY STATEMENT

FloorworX Africa (Pty) Ltd, the leading manufacturer and distributor of vinyl flooring products and accessories, is committed to accept our leading role of responsible care for the environment. For the reason mentioned above, we are committed to developing, implementing and maintaining an environmental management system (EMS) according to ISO 14001:2004

In order to ensure compliance the management and staff of FloorworX Africa (Pty) Ltd commit to:

1. Reviewing the EMS on a formal and continual basis.
2. Environmental responsible manufacturing of products that conform to specified quality requirements.
3. Identify, mitigate and eliminate potential adverse environmental aspects.
4. Minimize any significant adverse environmental impact of current operations and any new developments through the use of environmental management procedures and planning.
5. Ensure continual improvement and sustainable development of the EMS through innovation; communication with employees and customer liaison.
6. Ensure that all personnel are regularly informed on environmental issues by way of Awareness Campaigns and Training Initiatives.
7. Comply with applicable legal requirements and any other requirements regarding EMS.
8. Encourage good environmental education through regular training.
9. Responsible management of all waste streams.
10. Develop an environmentally acceptable range of products and strive to modify all existing products to environmental acceptable standards
11. Pollution prevention – to prevent and wherever possible eliminate the release of pollutants that may cause environmental damage.
12. Develop, implement and maintain an environmental preparedness and response plan.
13. The company's goals, objectives and target are regularly revised when implementing and maintaining the EMS.
14. The policy will be freely available to the public upon request.
