

Our Story. Our Values.

About Us

Metric Office Furniture Ltd was established in 1970 by Barry Want. Over the years it has evolved to become the forward thinking commercial design, fit-out and refurbishment company that it is today. We have a proven track record and a reputation for second-to-none customer service.

We remain a family-owned and managed company having grown from strength-to-strength because of the values that Barry instilled from the very beginning. To this day our prime objective is to deliver what we promise, on-time and on-budget.

Jason Hart

Jason Hart has been with Metric since 1982 when he joined as a warehouse assistant. He has been Managing Director since 1998.

“We have been creating happy work environments since 1970! We are proud of our long list of loyal customers and grateful for lots of very welcome recommendations. Our customers come back to us because we always deliver over and above their expectations – on-time, on-budget and with a smile!”

The Team

Metric's team of furniture, interiors, workspace design and installation specialists are the company's greatest asset.

Customers never fail to be impressed by their experience, professionalism and dedication. They rise to every challenge and never fail to deliver to the highest standard.

A 100% customer focused approach

We design a workspace tailored to your requirements & your budget

We deliver. Our in-house installation team never fails

We listen & learn, get to know your business, your people and your premises

We schedule all the necessary work to suit you, incorporating out-of-hours and weekend work to minimise disruption

Metric's vast experience in the business means that we are able to offer a genuinely complete office furniture and interiors service – all under one roof.

We work with companies of all sizes in the UK and overseas. They may be relocating, renovating, growing or starting out. Whatever their requirement, be it a single chair or a total HQ design and fit-out, we quite simply deliver from concept to completion.

We create workspaces that work

Over the years the workspace has changed beyond all recognition.

We have learned that the most effective work environments are created by applying your business to your space. We fit together the right combination of 'ideal for task' areas giving you the optimal blend of quiet, collaborative, formal, informal, fixed, flexible and functional space to optimise productivity and express your company personality.

We have long established relationships with furniture manufacturers and suppliers and keep pace with all the new trends, developments and innovations on the market. We can help you to make light work of choosing the products which best suit you and your budget.

We work with companies of all sizes over London and the South East (and beyond!). Some of our customers have been working with us since we started in 1970. In our opinion no job is ever too big or too small.
