

# Silicone Release Papers for the Baking Industry

- Premium two-side aqueous silicone coating for optimum ease of use
- Coated in-house and quality assured under BSI, BRC and OHSAS control
- Consistent easy release
- Superior surface finish
- Complies with relevant FDA and BfR regulations for direct food contact
- Excellent char resistance for multiple bake performance especially on pure vegetable parchment
- Bio-degradable

As a private family owned manufacturer with over 50 years experience of supply to the baking industry, distributors and converters, Cotek has an unrivalled technical knowledge which is backed up by competitive pricing and high quality service.

Our aim is to understand and exceed your requirements. To cater for the widest possible range of end uses, we offer a number of options:

- CoBake® greaseproof and pure vegetable parchment are available, the latter in a range of substances from 42 - 70 g/m<sup>2</sup>
- High silicone coatweights for more demanding applications
- Tinted coatings or print under silicone for colour identification
- Finished product can be in the form of reels, sheets or cut shapes according to your specific needs
